

Lipscomb Opens Remodeled Store Friday as Walgreen & Co. Agency

Pharmacist Retains Private Ownership, Handles New Drug Line

Tomorrow morning the newly remodeled Lipscomb Pharmacy located at the North Gate will open a Walgreen Agency Drug Store. This store becomes one of nearly 2,000 individually owned drug stores throughout the country which handle the products of the Walgreen Co. and offer service similar to that provided by the Walgreen Co. in their own 500 odd stores.

Civil Service Seeks Chemists, Machine Operators

WASHINGTON, April 15.—The Civil Service Commission is seeking Junior Chemists and Senior Bookkeeping Machine Operators for the Federal Service.

For Senior Bookkeeping Machine Operator positions, a written test to determine ability to perform various kinds of clerical work will be given. The salary is \$1,620 a year. At least 1 year of paid experience is required in the operation of a typewriter-general accounting machine. Applicants must be over 18 years of age. Applications must be filed with the Civil Service Commission not later than May 19, 1942.

For the position of Junior Chemist, paying \$2,000 a year, women especially are urged to apply. Completion of a 4-year college course, with 30 semester hours in chemistry, is required. Senior students may apply and are eligible for provisional appointment prior to their graduation if they will complete the prescribed course within 4 months of the date of applying. There is no written test. Applications must be filed with the Civil Service Commission, Washington, D. C., and will be accepted until the needs of the service has been met.

Full information as to the requirements for these examinations, and application forms, may be obtained from College Station, Secretary of the Board of U. S. Civil Service Examiners, at the post-office or from the Secretary of U. S. Civil Service Examiners, at any first- or second-class post office.

Wayne university has the largest group of students in history—107—seeking the degree of bachelor of science in medical technology.

The Lipscomb Pharmacy contract with the Walgreen Company for Walgreen products and services, does not involve Walgreen Company ownership or operation. This store is entirely independently home-owned and operated. The rearranging of the store was planned by the Construction Service of the Walgreen Agency Department.

The store has been completely departmentized. Some of the more important departments of the store include tobacco, toiletries, drug, hospital supplies, prescription and fountain. The fountain department features complete food service.

In commenting upon the store's connection with the Walgreen Co., Lipscomb goes on to say, "Besides the great value of the services which our store will receive as a result of this contract, the value to the people of College Station, which access to the tremendous number of products and merchandising service brings, is beyond any accurate estimate. More than 1300 products covering a wide range in the drug and cosmetic fields are manufactured in the Walgreen Co. laboratories in Chicago. In this manner the public has definite assurance from the greatest name in the drug business that the product offered is fresh, efficient, pure and properly described.

"The advantage in prices are also most important. We intend to follow an aggressive merchandising program that will bring Metropolitan center prices to the people of College Station. We are certain that our connections, combined with excellent service and honest values, will bring many more and better values to this community. We wish to call especial attention to our grand opening one cent sale and sincerely invite all to attend it. We know that the opening of this fine new drug store will be an event of more than ordinary interest to the community."

Total Texas university enrollment for the current long session is 10,042 individuals, 104 fewer than for last year.

Texas Singers

The quartet of the Texas university girls' glee club will feature "Night and Day," "Blue Skies" and several other popular songs as their part of the Kream and Kow Klub program in the Assembly Hall tomorrow night. Roberta Strauss, Betty Jean Jones, Mary Jane Porter and Mary Buchanan make up the quartet.

Page Cautions Registrants to Give Thought to Occupation Questionnaires

AUSTIN, April 15.—Announcing the distribution of occupational questionnaires (Form 311) to men who registered on February 16, General J. Watt Page, State Selective Service Director, urged that they give careful thought to their skills, experience and aptitudes when filling out these forms so that the best possible use of their services may be made in the Nation's war effort.

The questionnaire, which is being distributed to February 16 registrants by their local boards, later will be sent to registrants of the First and Second Registrations and those of future registrations, General Page said. Its purpose is an inventory of the present employment activities of registrants and of their skills and abilities. It has no connection with, and is not to be confused with, the regular Selective Service Questionnaire (Form 40) which is sent to all registrants to obtain data on which Selective Service classification is based, General Page emphasized.

The data obtained through the occupational questionnaire, General Page said, will be forwarded through State Headquarters to the National Roster of Scientific and Specialized Personnel and to the United States Employment Service. It will be used by these federal agencies, respectively, to locate persons with certain professional and scientific qualifications and those who have skills or aptitudes in critical or essential occupations for the ultimate purpose of achieving a more complete and efficient utilization of the Nation's manpower in the war production program.

The early graduation released 180 seniors for service in the armed forces and in industrial defense work nearly two months in advance of the university's annual commencement, June 5.

U of Cincinnati Holds Special Graduation

CINCINNATI, O.—(ACP)—For the first time in its history the University of Cincinnati held a special wartime graduation April 10 for a large portion of the college of engineering and commerce senior class.
