

Cadets Asked To Report Right Time

Marshall Requests Schedule Followed Closely as Possible

Juniors reporting to the Assembly Hall for completing enlistment in the Enlisted Reserve Corps have been asked by Major L. W. Marshall, in charge of the enlisting to report at the regular period set aside for them.

All Juniors taking Junior Military Science are required to enlist.

The schedule for the remainder of the enlistment period follows:

Tuesday, June 9

8:00-9:00 a.m. Chemical Warfare Service Juniors.

9:00-10:00 a.m. 1/2 Section 502, F.A. M.S. 303.

10:00-11:00 a.m. Voluntary.

11:00-12:00 a.m. 1/2 Section 501, Signal Corps, M.S. 305.

1:00-3:00 p.m. Chemical Warfare Service Juniors.

3:00-5:00 p.m. Coast Artillery Corps Juniors.

Wednesday, June 10

8:00-9:00 a.m. Voluntary.

9:00-10:00 a.m. 1/2 Section 501, F.A. M.S. 303.

10:00-11:00 a.m. Voluntary.

11:00-12:00 a.m. 1/2 Section 500, Signal Corps, M.S. 305.

1:00-3:00 p.m. Chemical Warfare Service Juniors.

3:00-5:00 p.m. Coast Artillery Corps Juniors.

Thursday, June 11

8:00-9:00 a.m. Voluntary.

9:00-10:00 a.m. 1/2 Section 502, F.A. M.S. 303.

10:00-11:00 a.m. Voluntary.

11:00-12:00 a.m. 1/2 Section 501, Signal Corps, M.S. 305.

1:00-3:00 p.m. Chemical Warfare Service Juniors.

3:00-5:00 p.m. Coast Artillery Corps Juniors.

Friday, June 12

8:00-9:00 a.m. Voluntary.

9:00-10:00 a.m. Voluntary.

10:00-11:00 a.m. Voluntary.

11:00-12:00 a.m. 1/2 Section 500, Cavalry, M.S. 307.

1:00-5:00 p.m. All who failed to appear when scheduled.

Saturday, June 13

8:00-12:00 a.m. All who failed to appear when scheduled.

Monday, June 15

8:00-11:00 a.m. Voluntary.

11:00-12:00 a.m. 1/2 Section, 500, Cavalry, M.S. 307.

1:00-5:00 p.m. All who failed to appear when scheduled.

Model Aviation Week to Be Held Here June 22-27; Prizes for Flying Contests

Model airplane enthusiasts will play a large role in Texas Aviation Week meetings here June 22-27, with several lectures and a series of cash contests arranged by Texas A. & M. College for visiting miniature plane-builders.

Dr. Howard W. Barlow, head of the department of aeronautical engineering at Texas A. & M. College, has made arrangements for model-builders to be housed in student dormitories here during Aviation Week.

Younger entrants in the model contests will be charged only for meals in the college mess-hall, at 35 cents per meal, while adult participants will be housed in a special dormitory for \$3 daily, including meals.

"There is no age limit in the contests Friday and Saturday of Texas Aviation Week," Dr. Barlow said, and continued:

"With the national model plane contest at Chicago cancelled because of the war, we hope to present a contest here which will give Texas builders a chance for real competition.

"In addition, lectures and demonstrations which will be presented on the subject are well worth the time of any real model-plane enthusiast."

The model-builder schedule opens at 9 o'clock Wednesday, June 24, when airplane model instruction will be given throughout the day by various authorities.

On Thursday morning Ed Burgdorf of Houston, president of the Southwest Gas Model association, will serve as chairman at a model building session. The chief topic of discussion will be on development of airplane model clubs.

Thursday afternoon, under the chairmanship of Chris Groneman, of the industrial education department, instruction on model building will be held, with demonstrations.

Friday morning brings the first of seven model contests, which will be held under American Model

association rules in junior, senior and open classes. The prize list totals \$600.

The first contest is for scale models, which will be judged for exactitude in scale dimensions and excellence of craftsmanship. First prize in each class is \$10, ranging down to an eighth prize of \$1.

The remainder of the program is made up of flying contests. Friday afternoon will bring indoor and outdoor rubber-powered model contests, with the prizes the same as for the scale models.

The chief contest, for gas models, is scheduled for 9 o'clock Saturday morning. Here the awards range from a \$30 first prize in each class to a \$1 fifteenth prize.

Following the big gas model event will be the beauty gas model, stunt gas model and G Line gas model contests, each with a \$10 first prize. There are no entry fees.

ASCE Officials To Be Elected At Thursday Meeting

All Civil Engineering Student's Eligible to Join Regardless of Classification

The Texas A. & M. Student Chapter of the American Society of Civil Engineers will open its activities for the summer session at which officers for the year will be elected, J. C. Denney, president of the chapter, announced.

The chapter is one of the oldest engineering societies on the campus, and is also one of the largest, despite the fact that the civil engineering enrollment is much smaller than that in some of the other courses. The only requirement for membership in the society is that the candidate be enrolled in school as a civil engineering student, and no restrictions are placed on freshmen members. Dues are \$1 every two semesters; these dues entitle a member to attend any function of the chapter or of the parent society, to participate in any activity of the chapter, and give him access to the various publications of the society.

The club was active in campus affairs last year, and Denny plans even more activities for this year. Present plans include several barbecues, trips to the state conventions, a trip to the national convention, the presentation of several

Coach Norton Receives Trophy

Coach Homer H. Norton receives a trophy at College Night from Mike Haikin, sports editor of The Battalion, as a token of esteem from the corps of cadets in appreciation of the work that he has done in winning three consecutive Southwest Conference Championships in football for A. & M.

If You Fail to Get a Copy Of The Batt, It Can Be Remedied

If you fail to get your Battalion some of these mornings after an invigorating ten minutes of calisthenics, do not come running over to the Batt office with the intention of getting one or else! Remember, with only about 5000 copies to deliver three times weekly, Fletcher Asbury, Jr., circulation manager of The Battalion, and the circulation staff have their hands full getting things organized.

The first thing to do is to write your name and room number on

the back of the Batt card you got when you registered and give it to your first sergeant. Then if you don't get your Batt, see the carrier boy who delivers the paper in your dorm. He'll straighten things out for you and see that you get a paper.

If it becomes necessary to change your address, notify both the carrier boy of your old address and of your new address and you won't miss a single copy.

The same thing applies to the Battalion magazine and the Engineer and Agriculturist magazines.

The circulation department is trying to see that every one that paid for a paper and magazine gets it with as little delay as possible. Your co-operation is needed.

Baptist Students Go to Conference

Five Aggies left College Station yesterday to attend the annual South-wide Baptist Student Conference at Ridgecrest, North Carolina, to be held June 10-19. They were accompanied by Rev. and Mrs. R. L. Brown, pastor of the First Baptist Church of College Station.

Aggies making the trip are Lewis Eberspacher, Charles Barnes, Oran Jones, Bob Wright and Garnet White.

The conference is a gathering of Baptist college students from colleges in the entire South.

Juke Box Prom Opens Summer Program Last Saturday Night

Saturday night marked the beginning of the summer social season as the corps enjoyed the popular recordings of the Juke Box Prom. The popularity of this type of dance was proved by the large number of Aggies who attended.

One problem the Juke Box Proms brought to the attention of those who attended was that of too many stags in proportion to the number of girls present. While the problem is yet to be solved, Social Secretary Bobby Stephens and L. D. Boone, director of Student Activities are working on a plan whereby the number of stags will be limited.

One suggested plan was that each stag must accompany a couple. Stephens states that any suggestions that might aid in solving the problem will be appreciated.

Whether or not freshmen will be allowed to attend without dates is left entirely up to the respective organizations. The frequency of the Juke Box Proms will be decided by the enthusiasm of the corps.

Sergeant Thomas Made Staff Sergeant

Sergeant Malcolm E. Thomas, sergeant-major of the military department, has been raised to the grade of staff sergeant, according to an announcement from headquarters of the Eighth Corps Area at Fort Sam Houston.

Sergeant Thomas works in the adjutant's office in the military department.

Final Arrangements For Longhorn Publication Made

Class Section Photographs to Be Taken Starting June 15; Infantry Seniors First

Jenkins Searching For Aggies With Dramatic Or Musical Abilities

If you can sing, act, dance, play an instrument, or do anything in an entertainment way, Richard Jenkins, director of the Singing Cadets, is looking for you at his office in the Assembly Hall any day from 5 until 6 or from 7 until 8 o'clock.

He will be glad to enroll you in the Singing Cadets or book you to appear on Kadet Kapers some Saturday evening. It will be an excellent opportunity for you to improve your latent abilities and help the campus entertainment program no end.

Ring Committee Decides to Keep Old Crown Design

Further Investigations To Be Made In Improving Design for Future Classes

After careful consideration at a meeting held yesterday the senior ring committee decided not to accept the new style which had been proposed. It was believed by the members that the proposed changes would not help in keeping the ring from wearing.

Those students who have ordered the new style ring for delivery July 1 will receive the old style ring if they don't go to the registrar's office and notify them that they do not desire an old style ring.

Further investigations will be made, however, and work will continue on improving the ring for future classes.

College Community Chest Contributes \$1050 to USO Fund

The College Station Community Chest, through whose offices contributions to all charity, relief, and civic organizations are made, in its meeting last Friday night authorized a contribution of \$1050 to the Brazos County United Service Organizations Fund, Dr. C. H. Winkler, chairman, stated.

A drive is on this week to reach the Brazos county quota of this nation-wide drive for funds to provide entertainment for the men in the armed services.

Radio Station WTAW's Work Has Gained Wide Recognition

By Tom Journey

"This program has come to you from College Station" are words familiar to listeners all over the state of Texas as well as to many listeners in other parts of the country. When those words are heard on any of the networks, it's a sign that the production staff of WTAW, the A. & M. College radio station, is on the job.

WTAW operates on 1150 kc. with 1,000 watts of power on a limited time basis only. The station's facilities are used for making nearly all the "pick-ups" for networks when broadcasts are originated from the college as well as for the daily program put out over WTAW's own transmitter.

At 11:25 each week day an operator at the transmitter throws WTAW's carrier on the air for a 35-minute show. This daily broadcast features some of the best transcribed features obtainable, a recorded portion of popular music, and a five minute newscast with

Final arrangements for publication of the 1942 Longhorn have been made in spite of difficulties in obtaining printing and engraving materials, Johnny Longley, editor of the annual, announced Monday.

The first meeting of the staff for this year will be held Thursday evening at 7:30 o'clock in the Longhorn office in the basement of the Administration building. Longley asked that that anyone interested in working on the yearbook come to the meeting so that the staff can be organized.

Pictures for the class sections this year will be taken according to classes and organizations. The schedule for pictures for the seniors section will start with the Infantry Regiment on June 15.

June 15-22 Infantry Regiment.

June 23-29 Engineer Regiment.

June 30-July 6 Cavalry Regiment

July 7-13 Field Artillery Regiment.

July 14-20 Coast Artillery Regiment.

July 21-27 Composite Regiment.

Anyone having random snapshots of the campus may turn them in at the Longhorn office. These pictures of the campus enhance the attractiveness of the annual greatly and any that are contributed to the Longhorn will be appreciated, Longley stated.

Members of the classes who wish to use their last years class section picture may use them this year by going to the Aggie Studio and arranging for the picture, Longley added. It should be done according to schedule.

Horticultural Students Organize Summer Activities

The Horticultural Society of Texas A. & M. met Thursday evening for the purpose of discussing plans for their activities during the coming year.

Plans were discussed for a club house to be built on the horticulture farm, a summer horticulture show featuring varieties of figs, peaches, plums, and grapes, and other fruits and vegetables. The show will be conducted by horticulture seniors.

Two members of the horticulture Society will present an open forum at the club's next meeting for discussion by the other members.

Benito Canales, graduate of the School of Agriculture and Animal Husbandry of Saltillo, Mexico, is one of the newest members of the society. Canales is at A. & M. for the purpose of taking graduate work in fruit and vegetable products.

L D Boone, Student Activities Head, Replaces Joe Skiles

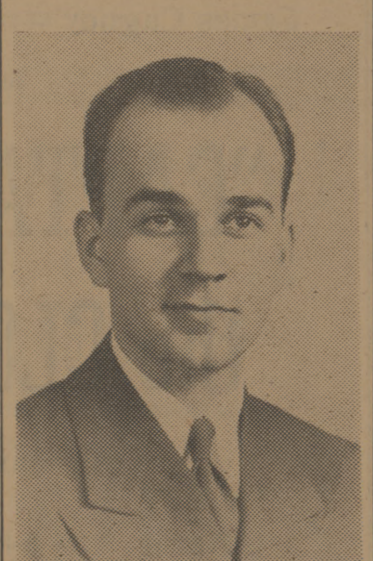

By Doug Lancaster

There's a new man on the campus that not only the "fish," but every Aggie, faculty member, prof, and member of the College Station population will want to meet. His name is L. D. Boone, and his hometown is Houston, but, although he has been here only two weeks, he is not "Fish" Boone. He is the acting manager of the Student Activities, taking the place of Joe Skiles, who accepted an officer's commission and entered the army last month.

Boone grew up in Fort Worth and later moved to Dallas, where he graduated from high school. He entered Rice Institute in 1932. During his college career, Boone was President of the Student Association, which has charge of all

social activities; he also served on the Hall Committee, an organization designed to keep order in the halls. Another activity that kept him busy was his being business manager of the year book.

After graduating from Rice in 1936, Boone accepted a position with the Goodrich firm, where he worked for three years in the sales and accounting department. He then transferred to the Burroughs Adding Machine Company, where he worked in the sales and installation department.

L. D. Boone, director of Student Activities.

Agronomy Society First Meet Thursday

The Agronomy Society will have its first meeting of the year Thursday night at 7:30 o'clock in the lecture room of the Agricultural Engineering building. All old members are urged to be at this meeting, and all freshman agronomy majors are invited to be there.

R. C. Potts, instructor in agronomy, will tell about the cotton tour just completed during the two weeks school was in recess. Plans for the coming year will also be discussed.
