

THE BATTALION

Volume 59

COLLEGE STATION, TEXAS THURSDAY, JULY 21, 1960

Number 127

Registration Set Sunday at 2 For Journalism Workshop

Week-Long Event To Attract 325

Approximately 325 high school journalism students and teachers will arrive here Sunday for the second annual High School Publications Workshop to be held Sunday through Friday.

The students and teachers will be from 78 high schools in Texas and 4 out-of-state high schools, including a group from Broadus, Mont., High School, according to Donald D. Burchard, head of the Department of Journalism, which is sponsoring the workshop. Joseph E. Redden, assistant professor in the Department of Journalism, is workshop director.

Also sponsoring the workshop is the Texas Daily Newspaper Assn. the Texas Press Fund Inc.

The students will be divided into two groups while at the workshop—yearbook and newspaper. In addition the newspaper group will be subdivided into mimeographed and printed sections. Special lectures in photography will be given to interested students in both groups, according to Wesley D. Clavert, assistant professor in the Department of Journalism and in charge of the photography lectures.

Special Address

Special addresses will be given to the high school journalists and their teachers by several top names in Texas journalism. They include Bill Barnard, bureau chief, The Associated Press, Dallas; Dick Peebles, sports editor, The Houston Chronicle; J. Q. Mahaffey, editor, The Texarkana News-Gazette; Mrs. Anne Roznovsky, news staff, Waco News-Tribune; and Frank King, executive editor, The Houston Post. In addition, Don Carter, executive director of the Newspaper Fund, Inc., New York City, will give the opening address of the workshop Monday morning.

Register Sunday

The high school students and teachers will begin registering Sunday at 2 p. m. in the Memorial Student Center and will have their first meetings Sunday night.

The newspaper section students will be reporters and editors on their high school newspapers next year and for practical experience while at the workshop they will be given assignments to interview certain faculty and staff members on the campus.

"The members of the faculty of the Department of Journalism and the workshop teaching staff hope (See Journalism on Page 2)

Moyer Plans Meteorology NSF Lectures

Dr. Vance E. Moyer of the Department of Oceanography and Meteorology, will deliver two lectures this month. The lectures will be in the National Science Foundation-American Meteorological Society of 1960 Visiting Scientists Program at the Louisiana Polytechnic Institute, Ruston, La.

On July 28 Moyer, who is associate professor of meteorology and coordinator of meteorology, will address a field biology program for high school teachers and a mathematics-engineering program for college teachers. He will talk on "The Challenges and Opportunities in the Modern Atmospheric Sciences."

Moyer will be the banquet speaker for the final exercises in the Summer Science Institute for High-Ability Secondary School Students, July 29. His topic will be "The Surprisingly High Accuracy of Weather Forecasting." All of these activities are being conducted under the sponsorship of the NSF, and will be the final participation of Moyer in the 1960 NSF-AMS program.

On May 2, he visited the campus of Panhandle A&M College, Goodwell, Okla., for a similar purpose; on June 23 and 24, he presented seminars in the atmospheric sciences in the NSF Summer Science Institute for Secondary School Teachers at Prairie View A&M. This is the second year of Moyer's participation in this program of visiting lecturers.

Application of Schooling

These two firemen are some of the 1,600 firemen attending the 31st annual Firemen's Training School, which opened Monday and closes Friday. They are putting into practice some of the fire-fighting techniques they have learned in their class work by putting out an oil fire with liquid chemicals.

Dousing Oil Fire

Using a carbon dioxide compound, these firemen are showing another method of extinguishing oil fires. All during this week some of the firemen attending the 31st annual Firemen's Training School have been practicing putting out all types of fires.

Gasoline Fire Extinguished

Demonstrating that fast action can put out gasoline fires, these student firemen move in quickly to extinguish a barrel of gasoline. More than 1,600 firemen from all parts of Texas, other states and four foreign countries are attending the 31st annual Firemen's Training School, conducted by the Texas Engineering Extension Service. This was the first year the firemen have used Brayton Firemen Training Field, a memorial to the late Col. H. R. Brayton who served for many years as director of the school.

NSF Program For HS Biology Students Opens

A research participation summer science program for outstanding high school students, is under way here through Aug. 26.

The program is made possible by a grant from the National Science Foundation.

J. J. Sperry of the Department of Biology, is program director. Mrs. Inez Turbeville of Mineola is girls' counselor and David W. Smith of Del Rio is boys' counselor.

Practical knowledge in the various fields of science will be given the students. The public is invited to attend the sessions. The lectures will be held each day at 11 a. m. in the auditorium of the Biological Sciences building. Sessions will be held Monday through Friday of each week.

Students in attendance include the following:

John M. Atkin, Georgetown; Mary C. Bishop, Del Rio; Robert E. Carlson, Hoppeston, Illinois; Catherine I. Clark, Seminole; Mary

D. Cliburn, Newton; Jeanne Cook, Longview; Michael A. Earle and Rich B. Meyer Jr., Pasadena; Judy Foster and Gay Vincent, Bryan; Chas. B. McClelland and George L. Eastman III, Orange; Wilson V. Garrett, New Boston; Anna M. Harkins, Fort Worth; Gary Haynes, Marfa; Judy J. Johnston and Michael A. McCormick, Houston; Penny Kitchen, Corpus Christi; David E. Moreman, Hedley; James M. Muse, Paris; Paul R. Oliver, Grapeland; Clyde O. Parnell, Cleburne; Kenneth A. Radde, Meridian; David F. Reichert, Austin; John M. Talent, Lubbock; Charlotte A. Yates, San Antonio.

Lecturers include Dr. Martin J. Rubin, meteorologist, National Science Foundation; Dr. C. C. Doak, Department of Biology; Dr. R. D. Lewis, director of the Texas Agricultural Experiment Station; Dr. Frank Hubert, dean of the School of Arts and Sciences; Dr. J. G. Mackin, head of the Department of Biology; Dr. E. Burns, Department of Horticulture; NSF lecturer, R. L. Penrify, Department of Civil Engineering; Dr. Raymond Reiser, Department of Biochemistry and Nutrition; Dr. George M. Krise, Department of Biology; Dr. Bennie J. Camp, Department of Biochemistry and Nutrition; NSF lecturer, Dr. E. Keohler, biologist; Dr. Horace R. Burke, Department of Entomology; Dr. Joe S. Ham, Department of Physics; Dr. F. H. Kasten, Department of Biology; Dr. Basil W. Wilson, Department of Oceanography and Meteorology; Dr. Morris E. Bloodworth, Department of Agronomy.

Engineer Plans NSF Lecture Monday Night

Puerifoy, consulting engineer, will give a National Science Foundation lecture Monday at 7:30 p. m. in Room 113, Biological Sciences building. The public is invited.

He will talk on "Highway Construction Problems in Alaska."

Puerifoy graduated with a B.S. and M.S. degrees in civil engineering at the University of Texas.

He served as professor of Civil Engineering at the University of Texas, Texas A&M College; and in 1946, he was appointed to the staff of A&M.

Puerifoy served as a specialist in Engineering Education at the U. S. Office of Education and as a highway engineer for the Bureau of Public Roads in Alaska. He has had part-time industrial experience as a member of Puerifoy and Patterson, consulting engineers, and as a consultant to H. B. Zachry Construction Co.

His lecture will be accompanied by color slides; and at the conclusion of the lecture, he will show some color motion pictures.

Veterans Can Sign For July Payroll Starting Monday

Students who are attending school under the G. I. Bill may sign for July at the Veterans Adviser's office in the YMCA basement from July 25 to August 4, according to Bennie A. Zinn, Veterans adviser.

Best "Beatniks"

Miss Mary Anne Franklin of College Station and James Tucker, senior business administration major, were selected best "beatniks" at Monday night's Memorial Student Center Summer Entertainment Series dance, which featured a "Beatnik" theme. The pair were awarded two tickets to next Monday night's dance which will have a "Roaring Twenties" theme.

Dramatic Readings Tuesday Night

Special Program Planned In MSC

"Roaring Twenties" decorations will set the atmosphere for Monday night's dance and Janet Routh and Vic Wiening, dramatic artists, will present a unique program Tuesday—continuing the full swing of weekly activities of the Memorial Students Center Summer Entertainment Program.

Sunday's "Afternoon of Free Films" will return this week after last week's "vacation" for the between semester break.

Mrs. Routh and Wiening, who have appeared in a number of college and community dramatic presentations, will give a cutting of a one-act comedy, "Pygmalion", by George Bernard Shaw, in the Main Lounge, Tuesday at 8 p. m.

Daughter of Dr. and Mrs. A. D. Folweiler, College Station, Mrs. Routh attended schools here before going to college. She is well known in the community for her singing talent as well as her dramatic ability and has appeared in many activities in these areas.

Some of Wiening's experiences have included, the Milwaukee Civic Light Opera, Valparaiso University Plays, L.S.U. Student Director of Workshop Plays and others. He is an assistant professor in the Department of English.

Monday night's dance, to begin at 8:30, will be in the lower level

Rehearsing for Vespers Service

Herb Shaffer, Mrs. Bill Guthrie, Mrs. A. B. Medlen and Bill Guthrie rehearse for the special vespers service to be presented Sunday at 3:30 p. m. and 8 p. m. at the All-Faiths Chapel. The program is being presented under the sponsorship of the A&M Presbyterian Church and the All-Faiths Chapel. Shaffer and Mrs. Guthrie are soloists in the service, Mrs. Medlen is organist and Guthrie is director.

Vespers Program in All-Faiths Chapel

Special Service Set Sunday

A special vesper service of music will be given Sunday at 3:30 p. m. and 8 p. m. in the All-Faiths Chapel under the sponsorship of the A&M Presbyterian Church and the All-Faiths Chapel.

The service will feature a 35-voice choir and a 15-piece orchestra, both under the direction of Bill Guthrie, director of the A&M Presbyterian Church choir.

Bryan and College Station residents as well as some from Houston make up the two groups, according to Guthrie. Rehearsals have been under way for more than six weeks in preparation for the presentation, Guthrie added.

The services, both of which will

be identical, will be open to the public without charge.

The vesper service will consist of parts. The first will be the playing of Corelli's "Concerto Grosso". The number will be done by the string and cembelo portions of the 15-piece orchestra. The "Concerto" is a continuous piece consisting of portions played by a solo group with answers to the portions by the remainder of the orchestra.

The second part will be a presentation of one of the lesser-known works of Mozart, "Solemn Vespers of Confession." This piece, one of two of its kind written by Mozart, consists of musical presentations of Psalms 110, 111,

112, 113 and 117 and the magnificent, taken from St. Luke 1:45.

Soloists for the Mozart presentation will be Mrs. William Guthrie of College Station, soprano; Mrs. Victor Junger of Houston, contralto; Herb Shaffer of College Station, tenor; and Bill Cunningham of Houston, bass.

Mrs. A. B. Medlen of College Station will be organist for the presentation. The Rev. Norman Anderson, pastor of the A&M Presbyterian Church, will give the invocation and benediction for the services.

An offering will be taken at the close of each of the two presentations to help defray the expenses, Guthrie said.
