Jaworski Suggests Remedies For 'Imbalance' Of Justice

By LEE JONES

WASHINGTON—After what several members said were fears of impending campus disorders, the House--by a vote of 135-12, sending the measure to the Senate--passed a bill making it a crime to incite a riot, and authorizing the State Board of Education to suspend any student convicted twice.

The bill, heard and sent to a third reading Wednesday, would make it a criminal offense for any person to use language in the presence of another person that would reasonably be understood by that person to be incitement to riot, or that would be likely to produce a circumstance likely to produce imminent needed to the discipline of the accused.

Another amendment guarantees the right to counsel for the accused at any time, if the accused so requests.

Rise In Drug Use

The bill, heard and sent to a third reading Wednesday, would make it a criminal offense for any person to use language in the presence of another person that would reasonably be understood by that person to be incitement to riot, or that would be likely to produce a circumstance likely to produce imminent

The US Senate's advisory opinion, however, simply requests that the accused have a "meaningful opportunity to be represented by "counsel of his own choosing." It does not provide for counsel in the case of the indigent defendant.

The Jaworski plan includes a number of other proposals, including minimum application of the state's liberal statutes to the accused.

"The system is too often based on a perceived result rather than on the reality of the case," Jaworski said. "We must make the system fair and just for all defendants, regardless of their economic status or background."
