INFLATION FIGHTING ideas

"No Matter How You Slice It, It's Cheaper if You Slice It."

The U.S. Office of Consumer Affairs reminds us that pre-sliced and pre-cut meats, cheeses, poultry and fish are usually more expensive than these same items are in their "solid" form. Whole chickens, for example, cost significantly less per pound than cut-up chickens. Chunk bologna and other cold cuts cost less by the piece than sliced.

Safeway's new Bulk Beef program is another example of how we can all do things ourselves to fight inflation. In this program, we offer large or "bulk" packages of boneless USDA Choice beef, consisting of sub-primals which can then be cut and trimmed into retail cuts. You then individually wrap the cuts the way you want them for your home freezer.

Because of our lower costs in labor and materials, we are able to offer these bulk packages to you at a saving. Expert Safeway meat cutters will be glad to give you advice and assistance on how to get the most out of your sub-primal cuts.

Next week's Inflation Fighting Idea: "CHECK OUT RAIN CHECKS." together, we can be INFLATION FIGHTERS!
