PUBLIC NOTICE

CLASSROOM COMMUNICATION ENHANCEMENT PROGRAM (CCEP)

PURPOSE:
The Classroom Communication Enhancement Program is designed as an integral part of efforts to continue to enhance Texas A&M University's tradition of excellence in undergraduate education. In any classroom setting occasional problems which impede communication between a professor and a student may arise. The Classroom Communication Enhancement Program provides an effective mechanism for solving such problems at the level where they occur and by the individuals of responsibility. Moreover, the procedures are designed to effect resolution in an expedient manner.

GENERAL INFORMATION ABOUT CCEP
A student who has a concern about classroom communication should first discuss the concern with the instructor of the class. If, despite discussion with the instructor, the issue is not resolved, the student then may bring the matter to the attention of the department head of the instructor's department. At that point, a form (Classroom Communication Concerns Form) is completed by the student. If the matter is so sensitive that discussion with the instructor is impossible, the student may report the concern to the department head; at that point the form mentioned will be filled out.

The classroom Communication Enhancement Form Describes later steps in the procedure.

Types of Problems Not Covered By CCEP
Sexual Harassment
Discrimination
Grade Appeals
Please refer to Texas A&M University Rules and Regulations for procedures concerning these problems.
Questions about the Classroom Communication Enhancement Program may be directed to your dean's office.

The professional advantage

hp HEWLETT PACKARD
