Book Review

Shopaholic Takes Manhattan
Sophie Kinsella
Delta Fiction

Rebecca Bloomwood, the hilarious shopaholic introduced to readers in Sophie Kinsella's previous novel, *Confessions of a Shopaholic*, returns in *Shopaholic Takes Manhattan*.

Kinsella kept the elements that made her first *Shopaholic* novel successful, such as letters from bank managers denying several requests for further bank overdrafts and refusing to wipe out 1,000 pounds off her overdraft "accidentally on purpose."

She also kept Rebecca's hilarious thoughts and logic rolling throughout the book.

When Rebecca arrives in New York, she uses three rules to justify her shopping:

- 1) You can buy things you cannot get in Britain.
- 2) You can name-drop when you get back home.
- 3) Foreign money does not count, so you can spend as much as you like.

Rebecca's admiration of her shoe collection can also lead readers to tears of laughter.

"Once I lined [the shoes] all up on my bed and

took a photograph of them. Which might seem a bit weird - but I thought, I've got loads of photos of people I don't really like, so why not take one of something I really love?"

Of course, Rebecca, a financial guru, has again found herself in a financial mess.

Once she meets the wonderful world of style in SoHo and Barney's, she is destined to plummet further into debt.

At the same time, she tries to please her ever-busy boyfriend who is busy trying to secure a future in New York and please his never-satisfied mother.

Watching Rebecca squirm her way out of one sticky situation after another is enough to make readers hope Kinsella has a third novel of Rebecca's financial fiascos in the works.
