ATHLETIC COUNCIL

Tennis Players.

The tennis season is opening and no doubt there is quite a number of students who will desire to play this year. There will be no schedule made of the courts so long as there is not a congestion, or so long as certain students do not try to monopolize the courts to the disadvantage to the others. One rule that must be strictly held to is wearing tennis shoes while playing on the courts. Disregard of this rule will debar one from future participation and the benefits of the court.
