

Tex., under the firm name of Hutchinson & Radford.

Mr. F. L. Montgomery, '89, a stirring young lawyer of Sherman, was married to Miss Mozelle Davis of Austin. He has won a beautiful and noble young woman. We wish for them all the pleasures that usually fall to man.

Mr. Waldo G. Myers, B. M. E., '94, who has been working with the sewerage system of Meridian, Miss., has gone to New Orleans to accept a similar position.

Prof. W. B. Philpott and Robert F. Smith spent the summer preparing a souvenir of the Confederate Reunion in Houston. It is known as the "Sponsor Souvenir Album." It is not out yet but, if advance proof sheets are to be taken as an indicator "its a dandy."

We are glad to report of the success of L. L. Lewis, '93, He graduated from the Veterinary college at Ames, Iowa, with the highest honors. He has been offered an assistantship at Ames and will likely accept.

---

The matter for this issue was prepared by Buell C. Pit-tuck, '94, of Dallas. It will be the policy of the Alumni editor to avoid all work or at least as much as possible. We expect to have each issue edited by a different person. It's an experiment and whatever good or bad there is in it, time will tell. We would like very much to hear from the Alumni. We want the news and your thoughts. A postal will do it if you are too busy to write more.

Fraternally yours,

A. M. FERGUSON, Alumni Editor.

---

Willman was at the 'phone talking with a certain "fair one" in Bryan when "Minnow" came hastily up wishing to talk also, upon which Willman exclaimed loudly (to "Minnow"): "Get away from the 'phone or I'll break your neck." The words went through the 'phone, and you can ask Willman the result.
