### DEBATE.

*Resolved: That the Study of Mathematics is more Important than the Study of English.*

The axis around which the question at issue revolves is in seeking an education, which study should be regarded as more important, the study of mathematics or of English.

I am convinced that mathematics is the more important and trust to be able to prove the same satisfactorily from two standpoints.

In doing so I shall ask, What is the meaning of education, and what is its scope and object?

If we pause for a moment to try to find the definition of
