

Civil engineering and physics---Civil engineering course—Martin, Bowen; agricultural, horticultural and mechanical engineering courses—Campbell, Whisenant.

Drawing—Agricultural course—Miller, S. Barnes; mechanical course—Campbell, Evans.

English and history—Martin, Savage, Johnson.

Mathematics—Adams, Martin, Whisenant.

Mechanical engineering—Civil engineering course—Bowen, Kuhl; mechanical engineering course—Campbell.

Veterinary science—Whisenant, Harrison.

Fourth class—Drawing—Faust, E. Thomas; Bookkeeping—Roeder, Toberman.

English and history—Abrahams, Taylor, Fitzgerald.

Mathematics—Bittle, Rothe, Blohm.

Mechanical engineering—Garbade, Rothe, McNeill and Willis,

The entire class of twenty-six graduated this year, which is the first time this has occurred since 1888.

LOCAL.

The Houston Trip.

On the morning of the 21st of April, at an early hour, the corps of cadets boarded the special that had been kindly provided for their accommodation, for the city of Houston, to take part in the exercises that had been arranged to commemorate the deeds of the heroes of San Jacinto.

The trip down was without incident. When the city was reached a committee of soldierly and princely gentlemen met us at the depot and had the corps marched to the nearest hotel where refreshments were served, which seemed to be the starting signal for one continual round of generous and
