

## ALUMNI DEPARTMENT.

---

F. MARION LAW, Editor.

**W**ITH this issue of THE BATTALION a new department is added. I say new, because it has been over a year since the Alumni editor has used the space allotted to his department by the management of this magazine. Now, since a beginning has been made, it is my intention to use our space every time THE BATTALION is issued this session.

This month's issue will reach many if not all of the Alumni. When it comes if you are not already a subscriber, send in your name, and during the year, if anything of interest occurs concerning yourself or any other old student of the College, write the editor of this department about it. He will appreciate it and so will all the readers of THE BATTALION.

The following is clipped from the Galveston *Saturday Review* of recent date:

"I have received a letter from Puerto Principe, Cuba, under date of August 4, announcing the marriage on the 2d at Puerto Principe of Dr. Marion B. McMillan, assistant surgeon U. S. A., 8th cavalry, to Miss Conception Ribas de Agramonte. Dr. McMillan graduated from the State Medical College in this city last May, and during the three

winters he passed here attending college he went out a great deal socially. He came from a small town near San Antonio, and his family now live at Corpus Christi. It was not generally known that he was with the army, and his succumbing to the fascinations of a dark-eyed senorito is quite an interesting bit of information."

The young man referred to in the above is none other than the gay young quartermaster who was reduced to ranks because he went to Bryan to call on a dear friend without first going through the formality of getting a furlough. McMillan graduated with honor in 1895. Since his marriage he has been promoted and is now regimental surgeon in the regular army with rank of major.

A. M. Ferguson, '94, after a special course in St. Louis in horticulture, is back again at College in the capacity of assistant in the Department of Horticulture. The A. and M. College has never had a truer friend than Sandy Ferguson.

Perhaps the most highly exalted of all the sons of our alma mater is a young man who graduated away back in the early '80's. He is now president of the Southern Baptist Theological Seminary
