

Comanche, burned down shortly after the holidays. The "and Son" is our R. M. Barnes, '98.

Several of our boys are engaged on the T. and N. O. extension of the Southern Pacific. T. B. Goodrich, a former student, is resident engineer in charge of construction north from Rockland; F. J. Greenwood, E. L. Martin and C. D. Evans are in the engineering corps; C. W. Rollins, '93, until recently a civil engineer and county surveyor of Fort Bend County, is with the locating party; J. R. Holman, '95, transitman, recently got a two weeks' lay off, and now he is a married man.

There is no intention to unnecessarily occupy these columns with marriage announcements, still we have a few to record. On the 18th of October last Mr. J. M. Carson was married to Miss Holloway at Fort Worth. Mr. Carson was for several years Assistant Professor of Agriculture, and his many friends here and elsewhere wish them much joy.

Mr. A. Semones Adams, '95, who has been connected with the civil engineering department of the Southern Pacific for several years, was married to Miss Henney Zue Byars, the vivacious and accomplished daughter of Dr. and Mrs. James A. Byars, of Columbus, on January 17. Mr. and Mrs. Adams recently visited friends and relatives on the Campus.

Many of the old boys will be interested in the announcement of the marriage of Miss Stella Shepard, noted on another page.

On the same date Dr. Robert L. Dinwiddie, a popular old A. and M. boy, led to hymen's altar Miss Lillian Wurzbach, of San Antonio. Miss Wurzbach

is a sister of Mr. W. A. Wurzbach, '88, now a prominent lawyer of the Alamo City.

Geo. Baylor, of Uvalde, one of the old-time boys, is extensively interested in the Angora goat industry. He captured a number of ribbons at the San Antonio Fair last fall.

At the opening of every session for many years back the authorities of the A. and M. college have been forced to hang out the S. R. O. sign. Notwithstanding the increased accommodations it was used again at the opening of the present session. Next fall there will be accommodation for approximately 500. Will the old sign be needed again. Let's see.

Many of the graduates are not aware of the fact that several years ago the Alumni Association adopted a fraternity badge. They are of gold and may be secured, with your name and class engraved thereon, from Mr. Fritz C. Hoffman, '88, who is a jeweler at New Braunfels. He was given the contract by the Association, and any graduate may secure one by forwarding the necessary data and the sum of two dollars to Mr. Hoffman.

Henry Rollins, '97, is superintendent of construction and repairs now going on at the Prairie View Normal Institute.

A. U. Smith, '95, is still with the Galveston Bagging and Twine Factory, at Galveston. He started with that company about two years ago, beginning with comparatively low position as foreman of one of the departments, later on he was promoted to head foreman. Last October he was made assistant manager and shortly afterwards received notice that on the first day of January would be advanced to the
