

win this game has been the highest ambition of each of these teams for the past year. Every person in Texas who is loyal to either of these state institutions looked forward to this game with the greatest of interest. Many members of the alumni of both schools came hundreds of miles to witness the game. The corps of cadets of this college and about 150 people from Bryan went to Austin by special train. The day was ideal for foot-ball, and about 2500 people were in attendance.

The game was won by the University by a score of 29 to 6. A. & M. scored in about three minutes after play began, but the University outplayed us, and scored four touchdowns in the first half. One of their touchdowns was made on our fumbled ball, and the other was made on a kick from near our goal line. In the second half Varsity scored only one touch-down.

The only excuse that we can make for losing the game is that we were outplayed. Of course we were unfortunate in losing two of our best players on the verge of the game. This not only weakened our team, but broke up the team work.

Our team was in Austin two days, and during the whole time was royally entertained by the University boys.
