### Our Cadet Uniforms

From start to finish are made on our own premises under clean, airy and wholesome conditions. We employ only experienced and capable cutters and tailors, who thoroughly understand military requirements, and we pay the highest Union prices for labor, thereby securing the best possible results in fitting and workmanship.

We are the official uniform contractors for the United States Naval Academy, and scores of other high grade institutions, and we have been awarded the contract of 1903-04 for the Agricultural & Mechanical College of Texas.

It is our intention to produce such highly satisfactory uniforms for this College that we may add its name to our long list of notable successes.
