Comments and Clippings.

All of our old exchanges are anxiously looked for by us and we hope that this year many new ones may be added to our list.

The excellence of the literary work and the neatness in appearance of the magazine show that the staff of the Baylor Literary was not appointed at random.

Kansas State Agricultural College is well represented on our table by the Jay Hawker and the Student Herald.

HOW TO KILL A SCHOOL PAPER.

1. Do not subscribe. Borrow your classmate's paper—just be a sponge.
 2. Look up the advertisers and trade with the other fellow—be a chump.
 3. Never hand in a news item and criticise everything in the paper—be a coxcomb.
 4. If you are a member of the staff, play tennis or society when you ought to be attending to business—be a shirk.
 5. Tell your neighbor that you can get Frank Merriwell's for less money—be a squeeze.
 6. If you can't hustle and make the paper a success—be a corpse.
- Get the idea?
—The Baylor Literary.
