J. T. MALONEY

PROPIETOR

WHAT THE PROFS WILL DO THIS SUMMER.

Prof. H. L. McKnight will make a trip through the Southeastern states, visiting the experiment stations and agricultural schools of Louisiana, Alabama, Georgia and the Carolinas. By comparing their work with that of the experiment station here, he will gather much valuable information. He made a similar trip through the Northern states last summer.

Mr. L. L. Chappelle will employ his time in the machine shops in Detroit, Mich.

Prof. Puryear will teach at summer school, and will spend the remainder of the summer visiting in Virginia.

Mr. Standish, assistant in the machine shops, will visit his home in Bridgeport, Conn.

Mr. M. K. Thornton, the new assistant in the department of chemistry, will study chemistry in summer school at Columbia University, New York.

Prof. MacDougall and family will spend the summer in Southern California.

Mr. Canfield, instructor in English, will teach history at summer school. The remainder of the summer he will spend in Oregon.

Prof. Kyle will probably spend the summer in Galveston.

Prof. J. E. Lear will teach at summer school, and intends to make a small tour of the central part of the State.

Dr. Blake will teach at summer school, and will remain on the campus during vacation.

Mr. Nelson, instructor in chemistry, intends to spend the vacation in St. Louis, Mo.

Mr. R. W. Follett, instructor in English, will visit during the summer in Massachusetts.

Dr. Ball will employ the first part of the summer in scientific work here. The remainder he will spend in the mountains of Virginia.

Mr. H. Cassidy, of the Agricultural Department, will go to Ann Arbor University of Michigan.

Prof. Burns will teach at summer school.

S. A. McMillan, instructor in agriculture, will visit the agricultural colleges of Illinois, Indiana, Kansas and Wisconsin, studying their methods and gathering such information as will be of benefit to this college.

J. F. Williamson, of the Agricultural Department, will go to summer

school at Critchett, Texas. The remainder of the summer he will spend at Alabama Polytechnic.

Mr. G. H. Blackman, instructor in agriculture, will bud pecans in South Texas.

Mr. D. T. Griswold, instructor in animal husbandry, will spend about a month teaching agriculture in West Texas. After that he will work in the stock yards and packing houses of Fort Worth, studying market classifications.

Mr. I. C. Nichols, instructor in mathematics, will attend the University of Chicago, where he will obtain the Ph. D. degree of mathematics major.

Mr. J. D. Garner, instructor in mathematics, will teach at summer school.

Mr. F. J. Skeeler, instructor in physics, will attend the University of Chicago.

Mr. McPheeters, of the Physics Department, will attend summer school at Oklahoma A. & M.

Prof. Kidd will attend the University of Wisconsin.

Mr. W. T. Wright, instructor in physics, will teach at summer school.

Prof. A. Mitchell will teach drawing and bookkeeping at summer schools.

Mr. Heck, instructor in drawing, will spend the summer in New York and Chicago doing architectural work.

Prof. Geist will work on the Philadelphia Public Ledger.

Dr. Ehlinger will take a six weeks' course at the New York Polyclinic School of Medicine.

Mr. F. D. Steger, the Y. M. C. A. secretary, will study sociality in Chicago, Ill.

DR. BALL ADDRESSES

BRENHAMITES.

Under the auspices of the Blinn College baseball team Dr. O. M. Ball delivered a very interesting and instructive lecture in Brenham Friday night before an audience that filled the hall to its capacity. Dr. Ball took for his subject "Bacteria and Health." His talk was very interesting. He is a fluent speaker and his familiarity with the subject allowed him to appear at his best.

Saturday morning Dr. Ball gave a very interesting talk for the students of Blinn College, taking for his subject "Student Life in Germany," and the vividness with which he depicted the scenes and events which often transpire in student life there gripped the minds of his hearers so strongly that his address was immensely enjoyed.
