Individual Stars.

Littlefield of Marshall Training School, San Antonio, made the highest individual score of anyone attending the field and track meet of both high schools and academies, 31 points. The next highest score was 12 points, by J. Starnes of Marshall Training School. Marshall Training School, by a score of 86 to 45, took the state championship for academies from Allen Academy of Bryan.

While it was an interesting contest, it was not one of record-making character, because there were but two academies contesting, and they did not push each other. In fact, the high school boys, in their meet, made better time in races and longer distances in weight events except one, and higher jumps than did the academy boys.

1912-1913 Yell Leaders.

At a meeting of the corps held in front of the Mess Hall Monday, after supper, Lindy was re-elected to the position of leader of the cadet corps as his assistants two from the Third Battalion in the form of "Rusty" Dowell and Peter Klegg. "Rusty" began calling up the hogs at the age of two and has a well cultivated, siren voice. Peter is equally as good.

With this triumvirate at their head the cadet corps can not lose in athletic contests.
