Jot it down.

Here's the new method of making memoranda, a pocket case so handy and neat that it is a pleasure to carry it. A card for every day and extra ones for special purposes. The case is stiff so that one can easily write when holding it in the hand. You make jottings freely, for you find it convenient to do so, and you don't have any trouble in finding them. They just bob up at the right time.

**THE NEW WAY**

You have a filing tray with card indexes which make it easy to file your data according to date, subject or alphabetically. It will be at hand when required and MEMINDEX will remind you to refer to it at the right time.

MEMINDEX saves time and temper.

It is a daily reminder, a good one; it is very helpful and an enemy to man's forgettery.

Every man who does things should have one.

On this you record your plans for work and from this you see how to work your plans.
