

There is no more important factor in the banking business than scientific farming in all its branches.

The future development of this State depends upon the young man of today—help him all you can.

JUNIOR CIVIL ENGINEERS.

By B. H. FABER.

It has been said that a civil engineer has the hardest row of any professional man. Such seems to be the case with our beolved junior civil engineers.

Two days after the close of school the junior civil engineer begins a course in summer practice. The course consists of railroad building in which a complete railroad will be worked out and plans drawn up with terminals of College and the Brazos River. Practice will also be given in hydraulics. This course means three weeks of hard work, both night and day. The students leave college every morning at sunrise and work until sunset, and they return to college to do office work at night.

In connection with this work plans will be drawn up for an up-to-date boulevard between College and Bryan. It would be a great thing to have a pretty boulevard between our burg and our neighboring city, but it is possible for any cadet to dream of an electric line between the two places with real cars every thirty minutes, but while there is life there is hope. If enough interest is shown in the road work a course will be opened next year leading to B. S. degree in highway engineering. Here is a chance for some ambitious cadet to become a second Fravilla or a second "Highway" Potts.

At first thought one would think the boys will have no enjoyment, but such is not the case, for there will be "Frog" Mason, "Red" Gillespie and "Sot" Cawthon trying to convince the rest that each one is the clown of the junior class. While our "Sergeant

Major" Francisco and "Shorty" Ball will rush the Bryan society. "Steamboat" Roberts will show the farmers how the country walk is done. Old "Chem" Moss and "Sweet" Montgomery will show their ability in dirt fighting. "Fish" Hurdle will be there to carry the chain for his brother juniors. "Cadinun" (C. D.) Marrs and "Lead" (P. B.) Taylor hope to entertain the bunch by relating past experiences in other schools, while "Velpole" Denton and "Big Chief" Faber will conduct all the religious services with the help of "Biol" McCarty to lead the singing. "Daddy" Love and "Foxy" Crockett will lead and direct this bunch of notorious junior civil engineers.

"WITHIN THE LAW."

Miss Marion Morton, a talented and beautiful young actress of undisputed charm, heads the excellent cast the American Play Company has engaged for "Within the Law," the stirring new drama of modern metropolitan life, which will be the attraction at the Colonial Theatre on Wednesday, April 22nd, portrays the role of a girl who, after spending three years in prison for a crime, of which she is innocent, attempts to re-establish herself among reputable people, but is persecuted by the police, hounded out of honest employment and forced into a life of crime. From a timid, shrinking girl, she develops into a brilliant,

daring woman of cleverness and ingenuity, becoming the leader of a band of crooks, who prey upon society at will and manage to avoid the clutches of the police by remaining always "within the law," although they employ artificialities and technicalities of the law to safeguard their illegitimate pursuits. She also avenges herself upon the man who unjustly sent her to prison, almost breaking his heart, through his son and heir. Eventually she falls in love with the young man and is restored to her rightful position in society. Critics in New York and Chicago, in both of which cities this play is the current theatrical triumph, unanimously declared "within the Law" the most thrilling drama given to the American stage in the past decade.

Seats on sale Friday morning at Brandon & Lawrence's. Prices, 75c, \$1.00, \$1.50; boxes, \$2.00.
