will compare favorably with others in the same class.

In regard to the inspection Lieutenant Brown said: "I was highly pleased with the showing made by the corp at inspection. While no report has been made at yet, I am very confident that we will easily be classed as one of the ten distinguished colleges."

"I was here in 1911 to conduct the inspection, and since that time I've noticed a decided improvement in one

direction, and that is in the development of officers," the captain said when he had completed the inspection. "We want men trained so that in case we should ever have a war there would not be a scarcity of good men for leaders. Your young men as officers have shown great improvement. Work of the regiment in extended order was decidedly good when I was here before and I can see no change in that regard."

INSPECTION.

Captain Laubach left Saturday night for Houston. Later he will inspect Arkansas University and a number of other military institutions in that dis-

trict before he returns to headquarters at Washington.
