NEW PRESIDENT BEGINS DUTIES

(Continued From Page 1.)

ery move for the public good in Denton and has been a valuable worker in the church. "Above it all, he is a Christian gentleman and comes to A. and M. College with clean hands, a clean heart, and a pure life," said Hon. W. C. Davis at the A. and M. banquet in Bryan. Dr. Bizzell is 38 years old and has a wife and two children, Sangster, a boy of twelve, and Elaine, a girl of ten.

He is a man of democratic tastes, and a great mixer with his students. Nothing less than perfect harmony is to be expected between him and the corps. The Battalion predicts that with his coming there will follow the era of prosperity we have been looking forward to for so long, and that ere long the name of Texas A. and M. will be heard wherever the state is known.

BATTALION FEATURES FOR THIS YEAR

Good Things In Store for the Readers of the College Weekly.

This year the Battalion will endeavor to secure for its readers a thing which has never been given to them before—a history of this college. This college history will not be a dry recital of political happenings—far from it!—but it will be filled with interesting traditions, accounts of celebrated football games, football heroes and others once prominent in college life, and accounts of stirring events. It will be brimful of ginger and "pep" from beginning to end.

Column write-ups on "Who's Who at A. and M." will be one of our leading features. These write-ups will tell some of the interesting things to be known about the "great and near-great" among the students of this college, and will be illustrated by photographs or original drawings. These articles will appear once or twice a month.

It will be our endeavor to have many personals in each week's issue as possible. Not only will these personals be about cadets and their doings here on the campus and in Bryan but a considerable part of them will concern our alumni and instructors

COLLEGE PRESS SERVICE.

T. C. U., Sept. 4—The student body of the Texas Christian University has petitioned the faculty of the university to grant them student self-government. A tentative constitution, creating a Student Council with the power to try all cases of cheating and stealing within the bounds of the campus, has been drawn up, and as soon as it is ratified by the student body and the faculty, will go into effect. There is no doubt that it will not pass for the faculty favor the honor system and the students want it.
