## A. M. Waldrop & Company

BRYAN'S BIG CLOTHING STORE

made 10 yards Bell carried the ball 5 yards, and Brown made 10 yards. Then A. & M. fumbled. Trinity made first down. Then Trinity kicked, but recovered the ball on a fumble.

In the fourth quarter Trinity got very close to our goal line, but lost the ball on downs. A. & M. kicked. Trinity returned the ball and advanced it right up to the goal line, but they could not carry the ball across, and lost the ball on downs. Then A. & M. kicked the ball out and the game was over.

The lineup:

A. & M.	Position.	Trinity.
Cawthon	Center	Herring
Kelly	Right guard	Whitefield
Butler, Dickey	Left Guard	Groseclose
		Allen Carr.

Braumille, Brown	Rt. tackle	Fleming, C
Settegast	Left Tackle	McKenzie
Everett	Right end	Orr
Garritty	Left end	Beall
Scott, Burns	Quarterback	Estes
Bell, C.	Right half	Garrett
Coleman	Left half	Huffman
Brown	Fullback	Quaite
Mose, referee;	Van Riper,	umpire.

Time of quarters, 10 minutes.

### CO. G SELECTS A TROPHY SERGEANT.

H. S. Clark Elected by Small Majority to Bear the Howell Trophy.

On Monday night the old men of Company G met in room 39 Mitchell for the purpose of electing a trophy sergeant. This privilege is extended to the Company which wins first place in competitive drill for the preceding year. It is indeed an honor to be in a Company which has won the distinction of being the best drilled Company in the Regiment. The Trophy Sergeantship is one of the most desirable ranks to be had because of the fact that the sergeant represents his Company. Another reason is that the rank is given him by his friends.

Hugh S. Clark was chosen by a small majority to this high rank. He is a leading man in his studies as well as a good athlete. The entire Regiment extends its congratulations to Company G for their choice.

Prof. Hayden of the Department of Biology, has recently bestowed to science a contribution on "A New Species of Fresh Water Worm." The new species of fresh water worm which Prof. Hayden has discovered is to be found in water of this vicinity. This treatise appeared in the publication: "Transactions of the American Microscopic Society," for April, 1914.

### THIS WEEK FIVE YEARS AGO

Interesting Bits of History From the Battalion File for 1909-10.

Colonel Milner confers with governor in regard to securing additional dormitories and dining room space.

A. and M. plays T. C. U. for fifty minutes with 0-0 score.

C. B. Moran is employed as coach for remainder of season.

Claude Cavanaugh, editor-in-chief of the Battalion, leaves unexpectedly to accept position with the Houston Post and Frank Skeeler is elected as his successor.

Captain Richard Pearson Hobson addresses lyceum audience.

New promotion list comes out and strapping indulged in.

### WHAT DO YOU THINK OF THIS?

Students from the universities of Illinois, Indiana and Ames are teaching foreign men and boys in railroad box cars.

Men from Columbia, Harvard, Williams, Brown, Pennsylvania and other colleges are teaching educational classes in labor unions, talking in shop meetings, or leading clubs of working boys.

New York University men are giving entertainments before 2,000 regular members of labor unions.

Prominent under-graduates of Amherst, Massachusetts Agricultural College, Princeton and Pennsylvania State are doing deputation work in rural industrial communities.

Men from Cornell, Worcester, Polytechnic Institute, McGill University, California and the University of Puget Sound are visiting the homes of immigrants and are teaching groups in boarding houses.

Students of South Carolina, Furman, Jacksonville, Normal and other Southern colleges are doing extension work in cotton mill villages.

Leaders from the Universities of Pennsylvania, Pittsburg and Wisconsin are instructing convicts in jails.

### NATURAL GUESS.

"When a man is constantly looking at his watch, wouldn't you suppose he was tired of work?"

"Yes, unless there was a woman in the case."

### ENGINEERING NOTES.

When the sections M. E. '13 and '14 reported to the wood shop and blacksmith shop for practice, it was found that each section contained several more students than could be accommodated, but by dividing and rearranging some of the sections it was made possible for each student to have an opportunity to take the work offered in those courses. Each year these sections are large ones, but this year they are larger than they have been for several years.

This year the M. E. Department has sent out a large number of exhibits which were made in the shops and foundry by students.

The A. I. E. E. has been reorganized and officers for the coming year have been elected. J. F. Nash was elected president, A. Dickie secretary, and E. E. Rack chairman of program committee. Several of the most prominent engineers of the South have promised to address the society during the year.

Up to the present twenty students have registered for the two-year course for practical electrical engineers offered by the E. E. Department. This is the first year that this course has been given here, but judging from the large number of students taking it the course will certainly be successful.

The E. E. Department has added to its already well equipped laboratories several new machines, among which are two railway motors, automatic and hand control; a new induction motor for cascade connections; two alternators and a motor generator set for wave form analysis.

This department possesses the best set of standard measuring instruments in the State, and also the best fitted room in which to use them.

As the telephone laboratory has been moved to the top floor of the building, there is now ample room for the installation of the new machinery.

### LOCAL NOTES.

Dr. Frederick H. Blodgett left Wednesday for a week's trip to St. Louis to attend the twentieth anniversary of the Missouri Botanical Garden and a special meeting of the Central States Botanists to be held in connection with the Garden celebration. Dr. Blodgett has a paper upon some plants of Texas for this meeting.

### RESULTS OF ELECTION.

In last Saturday's election the following men were elected to serve as student representatives on the athletic council:

PETERS, E. M.

DENTON, V. C.

CLARK, S. F.

There are 340 Sophomore voters, 135 Junior and 96 Senior, but only 44 Sophomore, 71 Junior and 68 Senior votes were cast. Of these Peters received 123, Denton 112, Clark 96, Brown 92, Bararaco 71, Clarkson 54. It will be noticed that 70 per cent of the Seniors voted, 53 per cent of the Juniors and 13 per cent of the Sophomores, showing very clearly that a student's interest in college activities increases with his length of stay in college. Had the Freshmen been eligible, it is doubtful whether any per cent of them would have voted.

The Brenham Steam Laundry does the very best work on suits, "reg." trousers, hats, shirts and collars. See the agent in your hall.
