

## CAMPUS SOCIETY OF PAST WEEK

**500 AND STUDY CLUBS HOLD INTERESTING MEETINGS.**

**Campus Personals—Mesdames Youngblood and Connor Are Hostesses at Unique Tacky Party This Week.**

### 500 CLUB.

A charming finale of the afternoon given Friday by Mrs. Jobson, honoring the 500 Club.

Nuts were served during the game and afterwards a dainty appointed repast was enjoyed.

### MRS. HAYES ENTERTAINS.

Saturday evening Mrs. M. L. Hayes was hostess to the members of her Sunday School class.

The evening was most pleasantly spent in playing games and popping corn. At the close Mrs. Hayes served coffee and cake.

### STUDY CLUB.

The Campus Study Club held a most delightful meeting at the home of Mrs. E. L. Reed on Tuesday, January 19.

After a short business meeting, the following program was given:

Roll Call—An article for school lunch.

Paper—"Co-operation Between the School and Home," Mrs. J. J. Richey.

Discussion—The High School Girl, M. L. Hayes; The High School Boy, Mrs. H. E. Smith.

At the close of this very interesting meeting Mrs. Reed served delicious refreshments.

### PERSONALS.

Mr. and Mrs. Chastain entertained the Bridge Club Thursday evening.

Misses Sara Allen, Fannie Allen, Louise Batte and Mrs. Bryant were callers from Bryan Wednesday.

Mrs. O. M. Ball and daughter, Julia, are visiting Dr. and Mrs. Taylor at Austin.

Mr. and Mrs. B. Youngblood returned home Wednesday, after attending the Governor's reception at Austin.

Miss Virginia Kelley left Saturday for Paris, Texas, where she will become the bride of L. C. Wilds of Fort Worth on February 4.

Mr. and Mrs. West Boyd attended the Governor's ball in Austin.

Mrs. Poland of Angleton is the guest of her daughter, Mrs. A. L. Potts.

Mr. and Mrs. Michie of Bryan were at College Thursday.

Mrs. Range of Mesquite returned home, after a most pleasant visit to her daughter, Mrs. Jobson.

### TACKY PARTY.

On Friday evening Mesdames Youngblood and Connor were hostesses to the ladies of the campus, entertaining

## PHYSICAL CULTURE MENTIONS FRAPS

**TELL HOW BREAD IS MADE FROM COTTON SEED.**

**The Fraps Discovery Continues to Attract Attention—Subject Treated Humorously.**

Before the war was begun and in your own country, far from hot flung military, a cheaper, newer and more nourishing staff of life was invented. Dr. George Fraps of the State Department of Chemistry of Texas, has discovered a way to make bread that will make President Wilson's new slogan of "buy a bale of cotton" seem like a toy idea.

Dr. Fraps has everybody who has made and eaten the new cottonseed bread ready to vote him into the Presidential chair, if necessary. The women of Texas and elsewhere are all his lifelong and devoted adherents. If he can be reached—like most chemists, he is luckily inaccessible—he will be more than Hobsonized.

Dr. Fraps first was drawn to the possibility of bread made of cottonseed flour, from the fact that the food value of wheat flour is about one-fifth less than cottonseed flour. That is to say, to be accurate, it is as 108 is to 85. Moreover if a bread could be baked of a flour made of eggs, cottonseed flour bread would have twice the nutritive value of the former. In short, bread baked of cottonseed flour is from 10 to 50 per cent more nourishing than rye bread, wheat bread, rice bread or even beef.

When it is recalled that cottonseed was for years and years regarded as waste material and by-product of more expense to cotton manufacture than anything else, the multitude of new uses for cottonseed can begin to be appreciated.

Cottonseed bread is not only more nourishing than wheat bread, but it has another essential requirement for good fodder, to wit, a delicate tang and enticing taste. It is a golden color with a delectable, candied flavor.

Furthermore, it is not only bread that is made so well from cottonseed flour, but cakes, pie dough, pastries, zwieback, crullers, lady-fingers. The old Southern custom of serving corn-bread as a treat for breakfast will now have to go away back and to bed, for every table will hereafter groan with cottonseed bread, cakes and pastries.

Water is considered an ingredient in wheat flour—that takes up weight and bulk. There is one-third less water in cottonseed flour than in wheat. Sanitariums often assail refined wheat and polished wheat flour, because it lacks certain constituents of an ashy or mineral nature. Even unpolished wheat flour contains less than 1 per cent of mineral stuff. Cot-

## A. & M. VICTOR OVER DALLAS UNIVERSITY

**FARMERS DEFEAT VISITORS BY DECISIVE SCORE OF 40-7.**

**A. & M. Wins Easily Against University—Team Shows Marked Improvement.**

A. & M. defeated Dallas U. by the decisive score of 40 to 7. The visitors made only one shot, and that one was a long shot from the middle of the field. After the first two or three minutes of play A. & M. had it all her way. Dallas U. fought hard, but they were not in the same class with the Farmers. The team improved wonderfully since the first game. The guarding was a good deal better. The passing was more effective and accurate, but the greatest improvement of all was in the team work. The team worked just like a clock. A number of times the ball was in the basket before the visitors realized that the ball was in play. Gilfillan and "newt" Settegast threw the largest number of goals. Gilfillan got eight and Settegast seven. The two Braumillers were right on the job all the time. They always managed to get hold of the ball somehow and pass it down to one of the men standing near the basket. In fact, Nick past the ball just as easily when there was a fellow trying to take the ball away from him as he did when he had a clear field. Everett was on the job all the time, and it was mighty seldom that a Dallas U. man got a chance for a goal. Barnes made the longest field goal seen this year.

### Line-Up.

A. & M.	DALLAS U.
Settegast-Nick Braumiller	Griggs
C.	
Braumiller-Barnes	Farrell (Capt.)
G.	
Everett	Mathewson
G.	
N. Braumiller (C.)-Weaver	Layden
F.	
Gilfillan-Hansen	Gibbens
F.	

### Summary.

Fields Goals, A. & M.—Gilfillan 8, Settegast 7, Braumiller 2, Nick Braumiller 2, Barnes; Dallas U.—Griggs 1, Fouls, Dallas U.—Griggs 5.

### IT HAPPENED IN "M" COMPANY.

"Attention to guard detail for tomorrow—Privates Jordan, Hodgson, Daugherty; 'Sup' Bone."

Miss Virginia Kelly left Saturday night for Paris, Texas, where she is to be married to Mr. Wilde of Fort Worth.

By an improvement on our machine we are able now to put a crease that will stay. A. & M. Pressing Club.

## COLUMBIA STUDENTS PASS RESOLUTIONS

**IS DISCUSSED BY PROMINENT SPEAKERS.**

**A Word From the Student Body of Columbia to the Student Bodies of Other American Universities and Colleges.**

A public meeting of the students of Columbia University was held Thursday, December 17, 1914, to learn the undergraduate attitude toward increased armament for America, and to express disapproval of the propaganda for militarism which has been foisted upon the American public by vicious and insidious war scares in the popular press. Five hundred students attended, intense spirit was displayed, and the sanction given the four speakers was complete and unanimous. It is believed that a larger hall could have been filled with equal success, and that, for the purposes of anti-militarist agitation and the advocacy of a sane policy of limited armaments, definite organization will be justified in this university. It is also believed that similar spirit exists in our sister universities and may be waiting only for the opportunity of expression. For that reason the present report of the anti-militarist activity at Columbia has been undertaken, and is submitted by a committee of students chosen at the mass meeting.

### The Resolution.

"Resolved, That we, the students of Columbia University, in mass meeting assembled, hereby go on record before Congress and the people of the United States as opposed to militarism in general and an increase in our army and navy in particular."

This resolution was offered by Mr. Wayne Wellman and seconded by Mr. Paul Douglas, and was carried without a dissenting vote. Another meeting will be held in January, at which it is expected that the movement will find a sound financial basis. Propaganda in sister institutions is confidently awaited by the committee.

### The Speeches.

Mrs. Charlotte Perkins Gilman, the noted feminine author, lecturer and editor, in her remarks said: "The theory of peace through armaments has been exploded once for all by the present European situation. The one sure and definite hope of permanent peace is the extension of the Federal principle into international relations. A body of federated Nations is not a distant Utopia, but the one pressing need today, and the only thing which will maintain the integrity of the smaller Nations."

"I have been reading in the newspapers that our army was some thousands short of its war footing," said Prof. George W. Kirchwey, former dean of the law school. "Why should America now be required to go on a war footing? There has never been
