

## CAMPUS SOCIETY OF PAST WEEK

(Continued From Page 1.)

in a most charming and unique way. This occasion was to celebrate their birthdays

As the invitations read "Tacky Party," the ladies did their best, saluting forth in all of their glory in the most antiquated chapeaux, coiffures and costumes.

Mrs. Wiggs of the Cabbage Patch and all of her children arrived just in time, each one presenting the hostesses birthday gifts of various sizes and shapes. The opening of these packages afforded much amusement.

The Dam Family were also present, ranging from the grandpa and grandma to the baby, cat and dog. This family was quite musical, especially Jeremiah Perafine Dam, who gave several noted selections of ragtime.

Mrs. John Burns, chosen as the tackiest won as a prize a beautiful cut glass bon bon dish. Mrs. Burns made a very appropriate speech.

Many games and contests suitable to the occasion were played after which a grand march was formed led by the host and hostess.

The house was beautiful with many potted plants and house ferns.

In the dining room the table was laid with a beautiful lace cloth. In the center was a large birthday cake decorated with small red candles in the form of two question marks

### Holmes Bros.

If Its Cold Drinks and Candies. Ours Is Best.

## The Campus Barber Shop

Is first-class in every way; good barbers as you will find; well honed razors. Keep witch hazel, bay rum and cream, toilet and shaving soaps, for sale cheaper than any shop. Open from 7 a. m. to 7 p. m.; Saturday night, 10 o'clock.

WANTED—Farm and Ranch Land, for Colonization purposes. No tract too large or too small. If you want to sell your property at your own price, on your own terms, without payment of commission, write European Mutual Colonization Co., Ltd., 633 Kress Bldg., Houston, Tex., for listing blanks and full information.

Mrs. W. B. Bizzell was chosen to cut the cake first. After several attempts with a very harp knife it was discovered to be a large tin pan iced. Then each guest was requested to pull one of the red ribbons attached to the bottom of the cake. The ends of these ribbons told the fortune of the one who pulled it out.

A delicious salad course was served.

### INFORM YOURSELF ABOUT THE EXPOSITION

It would not be a bad idea to ask the home folks about your prospects for making the Frisco trip in your letter home asking for your second term's maintenance.

Had you ever stopt to think that travel is one of the best means of education there is? Also do you know that the Panama Exposition is the greatest world's fair ever yet held? And did it ever occur to you that it might be worth a year in school for you to see it, and that, therefore, it demands the same sacrifices that you would make for your college course?

Have you read much about the exposition and the hostess city—San Francisco? If not, you should at least look up a few points.

The librarian will tell you where you may find interesting and timely articles about the exposition.

Most of the railroad companies have published folders devoted exclusively to the exposition, which may be secured by sending a postal with name and address.

Above all things you should make arrangements to go with the corps, for there is nothing like gaining the other fellow's viewpoint on the various and sundry things which go to make up the world, for truly the whole world will be on exhibition in one great city.

### T. C. U. PRESIDENT ADDRESSES CHAPEL

Last Sunday we were more than fortunate in having the president of one of the sister Texas colleges to address the student body and campus people at the morning service. Dr. F. D. Kirchner of Texas Christian University at Fort Worth is a man of scholarly attainments combined with great breadth of mind.

He spoke on the pessimist and optimist, and called attention to Bible characters who carried out the parallelism between the two. And one especial point that was brought out very forcibly was: The pessimist does not look beyond the material world. We have heard many compliments upon Dr. Kirchner's sermon and only wish to hear him again.

### A. & M. CAN USE SMITH LEVER FUND

A resolution was unanimously adopted in the House authorizing Agricultural and Mechanical College to accept the money appropriated by the United States Government under the provisions of the Smith-Lever Act. Wortham, who introduced the resolution, expects that \$10,000 will be received by the college under the provisions of the act this year, it being required that it be applied to extension work among the farmers.

The emergency appropriation bill, granting \$82,700 to the Agricultural and Mechanical College for pressing needs, was finally passed in the House, and will be sent to Governor Ferguson for his signature. Of this amount \$25,000 is for extension purposes.—Houston Post.

## College Press Service

Trinity University, January 23—At the chapel last Tuesday, J. W. Jardine of the Agricultural College of Kansas and Prof. A. H. Leidig of A. and M. College of Texas, addressed the student body and faculty. These men were in Waxahachie in attendance at the Corn Grower's Association.

On Monday January 25, will occur on one of the local tennis courts, a tennis tournament between the three tennis clubs of the school. The winners will compose the team to represent Trinity at the tennis tournament at Baylor this spring.

On January 25, the local Press Club met and elected the following officers: R. H. Fleming, president, and Lucy Scott, secretary-treasure. The following delegates were also elected to represent Trinity at the T. I. P. A. meeting at Denton; Moore, Farrar, Williams and Hulsey.

T. C. U., January 25—Three hundred trees will be set out on the University campus on Arbor Day at T. C. U. February 9. Many of the trees have been donated by members of the faculty and student body. This is one of the first steps toward beautifying the campus.

About thirty men have reported as candidates for the '15 baseball nine. The prospects for a winning team this year are better than for several years past. T. C. U.'s weakest point is found in the pitching staff for as yet no experienced college twirler has appeared. The schedule for T. C. U. this spring follows:

Trinity at Waxahachie April 9.  
Rice at Houston April 10-11.  
Southwestern at Georgetown April 12-13.  
Texas at Austin April 14-15.  
A. and M. College at College Station April 16-17.  
Texas at Fort Worth April 26-27.  
A. and M. College at College Station April 28-29.  
Baylor at Fort Worth May 5-6.  
Two games have also been matched with the Chinese team for the first of the season.

Several valuable paintings by an art student in T. C. U. were burned in a fire here last week. The young lady arrived at the scene of the fire a few minutes after it caught but was too late to save the pictures. She wept as she saw them destroyed.

A large number of students in T. C. U. who are planning to take up the profession of law have organized a bar association, which meets every two weeks and gives a program of interest to aspiring law students. Most of them are planning to enter the law school at the University of Texas after their graduation from T. C. U. Several of them are Seniors this year.

### THREE KINDS OF COURAGE.

There's the courage that nerves you in starting to climb  
The mount of success rising sheer;  
And when you've slipped back there's the courage sublime  
That keeps you from shedding a tear.

These two kinds of courage, I give you my word,  
Are worthy of tribute—but then,  
You'll not reach the summit unless you've the third—  
The courage of Try-it-again.

—Roy Farrell Greene.

## PHYSICAL CULTURE MENTIONS FRAPS

(Continued From Page 1.)

tonseed flour contains more than 5 per cent of these necessary human factors.

An excellent combination in bread making is to use several times as much wheat flour as cottonseed flour for bread making. The economy lies in the cost of the cottonseed flour, which costs less than one cent for three ounces or more.

Not more than three ounces of cottonseed bread should be eaten daily because it contains twelve times as much fat as does wheat flour. It would not be fair to see all the colonels of Texas and the South suddenly turn into ex-President Roosevelts or other obese individuals.—Physical Culture.

### SNAPSHOTS.

The fireless cooker is here. So is the unfired cook, but not for long.

Lightning seldom strikes in the same place. It doesn't have to.

Formerly meal time was a ceremonial institution; now it has become a race meet.

Who flaunts nudity is coarse, but he who takes offense at it is coarser.

Though the wish is father to the thought, often it gets no farther.—Exchange.
