W. C. BOYETT, THE CAMPUS GROCER

THE WOMEN'S SOCIAL SERVICE LEAGUE.

An organization of the ladies of the campus for the purpose of helping and promoting the welfare and social life of the people of the campus in general. Mrs. J. D. Garner, president; Mrs. W. B. Bizzell, vice-president; Mrs. R. P. Marsteller, treasurer; Mrs. Hayes, secretary.

If you have not already grasped the significance of the foregoing, lend me your ear.

Have you wondered where our new Y. M. C. A. piano came from? Do you know just who is responsible for the entertainments we are all still speaking about? That last one we enjoyed so much? Why, it's these ladies with their league. Few of us have yet begun to realize what real, practical work they are doing for us, and the plans they are now working on.

At the present time they are bending their efforts toward furnishing and equipping the Y. M. C. A. building in such a manner that clubs and organizations may have conveniences and a place where their socials may be held. We have a fine building, but many necessary things are still lacking.

They have a social committee, with Mrs. E. J. Kyle at its head, ready to co-operate with any club or organization desiring to hold a reception. Members of this committee will be pleased to handle all the detail and arrangements as wanted, furnish chaperones, or any other detail to help make the affair a success. If you don't believe it, ask Mrs. Kyle.

All these things are being done with the idea of making more of a social

atmosphere than has been possible in the past. Some of us are a little shy when girls are around, probably due to the fact that we do not have them with us often enough to get acquainted. We now have a fine place to hold socials, and a fine league of campus ladies trying to help us to get more out of our lives here than we ever have before. They have our welfare at hand and want to know us better, and make our stay here something more than a mere existence. Do not worry about having to get acquainted with some nice girl you will want for company at the next reception. Leave it to the Ladies' League. They will look out for us now.

SOPHOMORE CLASS FOR BIBLE STUDY.

This year sees a great work being done by the Sophomore class for Bible study, under the leadership of Dr. Fountain. The class is the largest and most uniform in attendance of any Sunday School class heretofore organized on the campus, and bids fair to make the class of 1917 the most influential

body of men the college has had in years.

Members of the Bible study class have been generous contributors to everything that has been presented, notably the Belgian Relief Fund.

Socially the organization is a success, as the boys have who been thoughtful enough to take part in it will testify. Other social events are now in contemplation, soon to have birth. We believe in good society, and get a great deal of inspiration and help from our associations with the ladies, whom we shall be pleased to call our honorary members.

No man gains a better idea of life and broadens his views by isolation. We do not want to be isolated from society. Meeting the best people and mingling with those most cultured at every opportunity is a part of one's education.

Does any man of the Sophomore class dwell upon these thoughts and facts without a feeling of pride in the Bible study class? There is not a doubt but that they are working for the benefit of every man in the 1917 class, trying to gain for him more so-

cial pleasures and more intellectual inspiration. The ball is rolling, now, boys; give it a boost; your individual "shove" is needed. We want every man in the 1917 class to feel that his support is needed, and earnestly expected. Let's not leave this to "our next door neighbor." We want to be men here, independent in every sense of the word. The reason? Who will fight for you when you get out into the world? No one but yourself, and now is a good time to get the habit. Get out and be an active man, and reap the benefits of it.

Only recently it was found that the Bible study class had grown to such proportions that it has been thought best to divide it into three sections. We are a battalion of three companies now. Watch us grow, boys, we are going to have a regiment soon. Going to weld the whole Sophomore class into a friendship of love and a social circle so complete that others will imitate us.

WEDNESDAY EVENING CHAPEL.

President Bizzell stated Monday that the idea of Wednesday evening chapel was not for a religious service, but on the contrary it was only a meeting of the students with the faculty that they might be brought in closer touch with each other. It would also furnish a means of assembling the cadets to have some of the foremost men of the State to address them. As a rule the meeting would be short, lasting only a few minutes, and taking up the things that were pertaining to the welfare of the college.
