

CLOSING DAYS OF 1916 AT THE AGRICULTURAL and MECHANICAL COLLEGE OF TEXAS

GET THIS MOVIE FOR YOUR HOME TOWN.

A. & M. was in holiday attire when the moving picture, "Closing Days of 1916 at the Agricultural and Mechanical College of Texas" was made, Commencement. The picture, of which there are nearly 2,500 feet, is splendid in photography and subject matter and makes an interesting feature for any moving picture program.

The Southwestern Track Meet with Captain Merlin Mitchell winning the 100-yard dash, the football game between A. & M. and Oklahoma University when A. & M. won the Southwestern championship, are featured in the athletic division.

The picture has a distinct educational value but is not so "educational as to be heavy and uninteresting." There is not an inch of the 2,500 feet that drags.

The picture has been placed in the hands of the Exclusive Feature Film Service, 1917 Main St. Dallas, for distribution and is to be had at exceptionally low rates.

See that the two reels are shown and advertised in your community.

Every cadet in the corps is in this picture.

President Goes to Washington, Is Interested in Army Bill

President Bizzell left Saturday for Washington where he will confer with the war department officials concerning the army bill, recently passed and approved, and which has an important bearing on the land grant colleges. President Bizzell hopes to see the provisions of that bill in effect by the opening of school, September 26th.

One of the most important provisions of the bill is the furnishing of free uniforms to all cadets enrolled in the land grant colleges. That would mean the saving of a large amount to each student and would assist hundreds of worthy boys who are struggling to make their way through school.

Other provisions are for the issue of tentage, wagons, hospital and engineering equipment, etc., to these institutions.

Full announcement of the results of his visit will be made in the next issue of The Battalion.

TRUST FUND CHECKS.

Trust fund checks will be mailed out as soon as all charges from departments are filed in this office. This probably will be during the latter part of July.

We will give you a list of the charges and a carbon copy of each charge itemized. In case you do not understand any charge that is made, you should write direct to the department making it. If you write to this office we can only refer your letter to the head of the department concerned, and time will be saved by your writing direct.

W. WIPPRECHT.

TWO NEW SILOS.

Two new silos of 200 ton capacity each are being erected at the new \$10,000 dairy barn which has been completed. Prospects for an unusually heavy yield of silage are bright. In fact crop prospects for cotton and corn were never better than now. The dairy barn has unexcelled equipment. This building will be in use by August 1.

R. E. (Heavy) Connor, guardian of the Daily Bulletin is here for a few days visit. He will leave soon for his home at Lexington.

A. & M. GRADUATES ALWAYS IN DEMAND.

Graduates of the College in all branches, of the class of 1916, found no dearth of positions awaiting them. Every man who made good in his work has had at least one opportunity to fill positions of promise and some of them have had as many as three or four vacancies open to them.

The presence of many A. & M. graduates in all lines of engineering work and in agricultural pursuits, men who are making good, has cre-

ated a demand for Texas A. & M. men that is not to be satisfied even with the entire class.

The pay may be low at the beginning but the men who work find rapid promotion.

ARMY EXAMINATIONS ARE ANNOUNCED.

For the information of cadets or graduates desiring to enter the regular army Jas. R. Hill, First Lieut. U. S. Cavalry, commandant, makes the following statement:

"Word has been received that on August 21st, there will be held a competitive examination of candidates from civil life for appointment to Army as Second Lieutenants. As there are more than 1500 vacancies in the grade of second lieutenant any person who can pass the required examination has a good chance to be appointed. Graduates from A. & M. are exempt from examination in certain subjects. Full information may be obtained by addressing, The Adjutant General, U. S. Army, Washington, D. C.

A. & M. MEN EMPLOYED AT EXPERIMENT STATION.

Six A. & M. men are working on the Experiment Station farms at the College. In addition there are a number of men employed on these farms at various sub-stations located in different sections of the State. P. R. Perkins, '16, J. S. Mogford, '15, are graduates recently employed by the local experiment station officials while "Smiles" Jennings, F. W. Clarkson, Oscar Gray, and V. E. Hafner are undergraduates who are spending the summer on the main station.

The men are leading a bachelor life at the farm.

BOARD ELECTS ECONOMICS HEAD.

Dr. B. F. Clark, professor of economics at the State College of Pennsylvania has accepted the position of professor of economics at the A. & M. College. Dr. Clarke will arrive here early in September to prepare for the opening of school.

He holds an A. B., and an M. A., degree from Richmond College, Virginia and was given the degree of Ph. D., at John Hopkins. He succeeds Dr. T. L. Kibler who resigned to accept an appointment with the department of Justice at Washington. Dr. Clark has written a number of books along the line of economics.
