

G. H. HARTING President of the Freshman Class

dent of the class of '22, half when a bedent of the class of '22, half when fowing yerse; then association wa by the fol-

we are glad to recognize him as our leader.

Floppy came to us a star of high school busketball, and had he not been overtaken by mishap, we are confident that he would be a proud wearer of the red "T". His showing made in practice and in the first few games of the season more than ame up to the expectations of his we all maintain

many friends, and we all maintain that a hard luck injury lost A. and M. the service of a good guard.

One has only to know him, and we all do, to like him. His good natured laugh is often heard over the campus and for this very reason, he is often in trouble. You see he frequency that the second second in the second secon uently laughs at upper-classmen, which won't do. Along with his du ties as "Fish" president, comes that of general funky for "Sophs" and Juniors. To be sure that he is brought up right, he is the recipient brought up right, he is the recipient of many after tatoo visits and io's o' things. But he has proved himself to be an excellent host, and at the same time has won the reputa-

tion of being a good Fish.

Floppy has his bad points as well as his good, but, since he is our Fish Prexy, it hardly behooves us to tell off on him. Nevertheless, we shall umerate two of these. One is that he attempts to monopolize the A. and M. girl. Whether or not he is successful we shall leave to others to decide. The other is his mania for visiting Houston. He spends half of attempts to monopolize the A. and his time trying to get passes, and it is reported that he once went with out one, but there is anoher case of

O. H. FRAZIER.

"O" says Dallas is just north of Hillsboro, and he made the state-ment good when he came to A. and M. He has made the name of Frad-He has made the name of Fradier famous in football and track by consistent hard work, and as a re ward he is a wearer of the prized

Everyone is impressed with the vim that "O" puts into everything that he undertakes. He does not confine this energy to the athletic field, but puts it in practice in his studies. This is proved by his high standing in the Freshman Stock Judging Contest, His long suit is track work, and his hard work here entitled him to recognition. His one great thought in the track work is to break the World's Record in the

hurdles. When "O" finished high school he had an enviable record and he came here and did all that was predicted of him. Frazier has a good word for everyone and is an efficient officer of the Fish Class.

on all athletic teams. Many of the high school teams of north Texas remember the big, white-haired center from Central High.

He kept right on making good when he came to us, and, although he did not get into all of the games he did not get into all of the games he kept up his high academic record and is the delight of all his instructors. "Bob's" next move was in company football, and his side of the line was well taken care of in all of these games. When "Bob" is not busy with work, he will tell you all about the oil fields and show you just how and where an oil well should be drilled.

"Bob" has all the requirements of a good "Fish", but we have seen him out on the ledge when certain persons came into the room looking for him. He has flights of imagination semetimes and has been known to put titles to his name such as, "P. X. Y. Z. Carruthers, R. Q. T. G. Retired." Bob is well liked by everyone and has made a good class officer.
