## "T" CLUB ASKS COOPERATION OF STUDENT BODY

(Continued From Page 6)

small. Every man in school owes a certain debt to those who represent us in athletics and here is an excellent chance to pay a small part of it. Bring back a record from your home after the holidays and present it to the "T" Club. These can be left at the club room or given to any "T" man, and the giver may rest assured that they are deeply appreciated.

Found, one trunk. Owner may get same at Miss Celeste Ramsey's residence, Bryan.

## THE WACO CLUB TO HAVE ANNUAL CHRISTMAS DANCE

The Waco Club of A. and M. College have completed all arrangements for their Annual Christmas Dance. It promises to be a "typical A. and M. dance"—full of pep and jolly fun.

The members have been working hard for some weeks completing arrangements for what promises to be one of the most enjoyable of the holiday dances.

The date set is for Monday night, December 29, 1919, in the Ball room of the Raleigh Hotel, the Grand March to start at 9:30. Invitations will be issued as soon as the members return home on Saturday. Cards of admittance will be issued to the friends of the club members, by which only admittance can be obtained. All members of the Alumni Waco A. and M. Club and their wives are invited, as well as members of other A. and M. clubs.

The Alumni members and their wives together with all the mothers and fathers of the Waco Club at A. and M. will act as official chaperones.

The following is a list of the Waco Club members: Taylor, E. President; Whitman, C. D., Vice-President; Brown, J. C., Secretary and Treas.; Smyth, L. L., Sergeant at Arms; Arrangement Committee: Huff, R. P., Chairman; Fiser, W. C., Megarity, C. Members: Cimo, P., Clayton, R. L., Cooper, M. J., Crippen, W., Davis, H. A., Ellis, J. P., Fason, E. B., Hall, C.

**Why You Should Choose Machinery Built by the J. I. Case Threshing Machine Company, Bearing the Famous Old Trade Mark of the Eagle on the Globe.**

If you could be here in Racine, and could spend a week going through our great shops, you would learn some things that would open your eyes to the superiority of the entire line of machinery we manufacture.

Because of our great output, we are able to buy better quality of steel for the same price that lower grades of steel would cost in smaller quantities. This means greater strength and longer service to you.

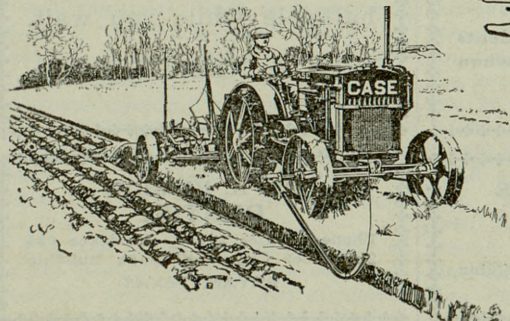

Because of unusual manufacturing facilities, we can and do use *drop forgings* in hundreds of places where a casting might "get by,"—and might break. We protect you from taking the chance.

Holes for bearings in Case Kerosene Tractor main frames are bored and reamed in one operation by a special machine. Bearings can never shift from their proper positions. The frame can never twist or warp.

Case machinery, bearing the trade mark of the Eagle on the Globe has many other advantages. Ask the nearest Case dealer to point them out to you on

Kerosene Tractors	Steam Tractors
Threshers	Baling Presses
Steam Rollers	Silo Fillers
Rock Crushers	Road Graders
	Grand Detour Plows

Look for the EAGLE. Our Trade Mark

To avoid confusion, the J. I. CASE THRESHING MACHINE COMPANY desires to have it known that it is not now and never has been interested in, or in any way connected or affiliated with the J. I. Case Plow Works, or the Wallis Tractor Company, or the J. I. Case Plow Works Co.

NOTE:  
We want the public to understand that our plows are NOT the Case plows made by the J. I. Case Plow Works Co.

It is nice to take a hike to the far-famed Brazos river, especially when it is cold enough to,—well say pretty cold, and you start just as the sun is peeping out of the east. By setting a walking record one can reach this goal in one hundred and twenty minutes. Then consume two or three hours hunting pecans. (Hunt is the correct verb to use). Just at this point the wild game captured should be prepared for chow.

And let me tell you, boy, we had "some" dinner.

The return journey was begun promptly at three o'clock with loads and loads of those little berries they call pecans. (Better luck after chow than before). Some say this would be a bitter physical experiment, but we have no regrets, although it was rather provoking to have to walk to classes the next day, and still worse to have to drill the following day. Ask any of the following and they will be glad to give all particulars: Alexander, Holt, Schiller, Naeter, Atkins, and Turner.

We all know what effect whisky, beer, Zumo or hair tonic has when taken internally, but we never heard that chewing tobacco had and intoxicating properties. Corp. M. J. Cooper has established this fact by experiment.
