

THE SOPHOMORE.

The sophomore is a specie of the human family that thrives in all colleges. He looks very much like man and is socalled by a large percent of the scientist. All men that have made the origin of sophomore a deep study, know that he is of evolutionary origin. It is a proven fact that he was at one time a "fish". According to a theory advanced by the freshmen class—and this is a very enlightened class of people, the sophomore is a specie of the "brute" family, as is shown by his brutality. But this brutality is caused more by a common custom than from heredity.

To study this question more thoroughly we will take for example the sophomore class at A. and M. College. In this class we have the various types of mankind. We have the elongated type or the guys with the long lunch hooks. They have a large cavity under their belts which is rarely ever filled. Their prey is "fish" cush. His craving for sweets have caused freshmen to go cushless for several meals at a time. Next we have the middle class. As has been proven by our eminent professors we should beware of the "middleman." Then we have the abbreviated type. The type is developed to perfection at A. and M. College. Here can be found a whole "covey" that are so short they can easily walk under a bed with a high hat on.

But taking the class as a whole you can usually find them in the spring, congregated in small bunches, on highways, dark corners and various other places around campus holding a sack of... characteristic... to the well known holders."

Although the sophomore is called "brute" by the freshman and various other names by different authorities, (we admit that he is a sackholder), we, the Junior Class, wish to publish to the world that the type at A. and M. are MEN.

Now little Sophs don't come back at us with that alabi about the Junior Toastmaster being dressed as a waiter because to our one waiter there was a Sophomore Class of some 250 waiters.

BATTALION SECURES BAYLOR GIRLS FOR CONCERT APRIL 14th

Thirty-Five Beautiful Young Singers and Musicians Are Anxious to Appear Before the Students

The Battalion has just completed arrangements for the appearance at College Station of the 1920 Choral Club of Baylor College for Women at Belton. In the past this has proven one of the most popular entertainments of the college year and reports from all who have seen and heard the club this season state that this appearance will surpass all others.

The Baylor Club is noted for its excellent singing and years ago won the highest favor at A. and M. from their rendition of such a large number of popular songs. They have the music and songs that appeal to the A. and M. audience. Moreover, the manager, Mr. T. E. Sanderford of Belton, has written that the Choral Club for this season has the prettiest girls ever (which is saying a great deal) and that they will offer more of the popular songs than ever before.

The young ladies have emphatically expressed their anxiety to appear here and are looking forward with the greatest expectation to a memorable evening. No doubt, the cadets and students will fill Guion Hall to its capacity on this date, and many campus and Bryan residents have expressed their pleasure on learning of the engagement.

The Club is making an extended tour of East and South Texas and such is the popularity of these entertainers that A. and M. is very fortunate indeed to have secured them through the efforts of the Battalion for an appearance. Coming from Corsicana, the Club spends one evening with us and proceeds to Houston for the next entertainment.

The entertainment will begin promptly at eight o'clock, Wednesday evening, April 14th, at Guion Hall. The Battalion wishes to urge

all those who have missed the pleasures of this annual entertainment in the past to come out for an evening of guaranteed pleasure and enjoyment. Especially does it wish to caution every one to come early—for this is one entertainment of the year when every seat is taken and TAKEN EARLY.

WANTED — Anyone knowing the inscription that is on the back of my gold football, please notify J. A. Pierce, 43 Mitchell, as I sent it off before I saw what was on it. It will be greatly appreciated if anyone will give the above desired information.
