E. E. SIDE OF BANQUET

Several weeks ago when the Sophs first learned that the Junior Banquet was to be a **current** issue, great as their **potential energy**. Many theories were advanced and **commutated** to the Sophs who were in **phase** with the situation.

A lot of **pulsations** ensued and it was decided that the Juniors would have lots of **resistance**. The Sophs were puzzled just **watt** method they would pursue, but finally that the **frequency** of their meetings should be increased. Quite a bit of **current** opinion was handed to them but they did not take much of this **ohm**.

The drill field seemed to be the **starting box** of all their ideas and plans. How all of their plans **farod** will never be known due to the **re-lays** established along the line.

As both classes were afraid of **leakage factors**, secret meetings held and very little **external** knowledge disclosed.

The Sophs were undamped in their efforts to get the toastmaster and used all their power to secure him. But alas! their most excited hopes dwindled when they found that they had not abducted the man they were after.

They kept up with his **bearings** but by his **multiple winding** about over the country and the many **paths** by which he could get **ohm** proved to be an **overload** for the Sophs.

By the night of the Junior Banquet the Sophs were very **reactive**.

The Juniors made their rush at the opportune time and the Sophs were defeated due to the **inductive** part played by the Juniors in the rear of the Mess Hall.

The Sophs were real sports and took defeat in the right way. But due to the sudden **interference** with their plans, the **energy** stored in the Sophs had to be expended in doing woeful work so they invited the few remaining Fish to go on an expedition. Remote **control** of the Fish was excellently demonstrated as there is no telling **watt** hour the Fish all returned to their **cells** after having spent that night **circulating** about over the **complex areas** near College.

PARODIES ON FAMILIAR OLD SONGS

The Old Oaken Bucket

How dear to my heart are the days of enjoyment,
When fond recollection presents them to view.
When I. W. W.'s out of employment,
Strikers and Bolsheviks numbered but few.
The merry old pool hall, the saloon standing near it
Those spots of divers'ion so happy to me.
Its mirth and its laughter—forever you'd hear it
And even the rude beer keg I held on my knee.

Chorus.

The old oaken beer keg, the iron bound beer keg,
The joyous old beer keg, I held on my knee.

But closed is the pool hall and saloon that stood nigh it,
And every loved spot has now vanished from view.

How lonely I feel when I chance to pass by it,
O, my faithful old pipe, I'm afraid they'll get you.

The beer keg is gone—in a well they've entombed it,
That sparkling old treasure so dear to my eye,

They have cut off its head, and in chains they have doomed it
To moulder and rot, and in darkness to die.

Chorus

The old oaken beer keg, the iron bound beer keg,
Now a moss covered bucket it hangs there to die. —M. S. S.

BAND DISCORD

Our College Band struck their first discord the other evening when Crippen tried to make Robert King. Crippen said it was asley done but first he had to floor-Walker.

Walker arose as if going to reveille and would have crawled his Frame if he had not drawn his Buie-knife. It only tended to Phillup Ben with Glezen when Davidson slipped up behind Crippen and, raising his foot which weighs a Clay-ton, gave him a North-cut.

This was done for a cheap Price but was rather Slovaccek.
