

HIGGINBOTHAM OUT OF FOOTBALL

(Continued From Page 1)

erbocker was not used in any further games that season or year. He played two years at Southwestern after he became eligible and then came to A. and M. The first year he was here he was ineligible on account of the one year transfer rule. Last season he was an outstanding figure on the A. and M. team. That made his three years. Saturday the conference ruled that the one game in 1915 should count as a year's participation making his allotted four years in inter-collegiate athletics.

The A. and M. representatives contended that inasmuch as he was ineligible in 1915, had not signed an eligibility card and the S. U. authorities assumed full responsibility for his being played erroneously that the game in question should not be counted as a year's participation. Conference rules are that if a man plays only a minute in one contest he has nevertheless participated and that that participation counts as a year in inter-collegiate athletics. Oklahoma A. and M., Rice, Baylor, and Texas University voted against the motion of Dr. Wellman of Phillips University that Knickerbocker be declared eligible. Dr. J. S. McIntosh of S. M. U., chairman of the conference announced that should a tie result and he be allowed to vote that he would vote for his eligibility.

All questions as to eligibility urged by Baylor, Oklahoma A. and M. and Southern Methodist University were voted on adversely by the Conference. The policy as determined Saturday was for a strict adherence to technicalities and the letter of the law rather than to the spirit. A. and M. urged that the function of the Conference was to rectify or adjust the angles of protection to athletics and yet insure justice to players. A. and M. was in the minority on that score.

Coach Rix of S. M. U., coach at Southwestern at the time of the game in 1915 was present and made a statement in which he argued that Knickerbocker be declared eligible.

ASSISTANT PROFESSOR OF M. S. AND T. ARTS AT A. AND M.

Captain Horne, F. A., Now With Military Department

Captain Chalmers D. Horne, Field Artillery, with Mrs. Horne, has arrived at College Station where they will make their home on the Campus. Captain Horne will be an Assistant Professor of Military Science and Tactics.

Captain Horne comes to A. and M. from El Paso where he has been on duty with the 82nd Field Artillery. His home is in Jacksonville, Florida.

The Captain informed a representative of The Battalion that he was much impressed with the spirit and pep of the corps. He is a college man himself and states that the noise at yell practice reminds him very much of the days he spent at Auburn. According to his judgment, "Red" Thompson is an ideal yell leader and has an able staff of assistants. The Captain is highly pleased with his new station.

The Corps and the Campus people welcome the Captain and Mrs. Horne to A. and M.

TODDA FORBES CAPTAIN OF R. V.

dent body and by all who are interested in A. and M. Under their leadership the R. V.'s should enjoy one of the greatest years in their history.

Sunday afternoon the newly elected members were initiated into the organization. After the ceremonies the old members formed a receiving line to each exit and gave the recruits warm welcomes of emphatic nature. A new phase of the initiation was the fee. In the past it has always been the custom for new men to buy out the Campus Confectionery for the benefit of those who were already R. V.'s. This little form of indoor sport was in the nature of a raid by the old men and the total charges which were usually considerable were against the new men. Beginning with this year this practice ceases and the initiation fee provides benefits to old and new men by going towards the R. V. Hop in the spring.

Much embarrassment resulted from the number of typographical errors in The Daily Bulletin through no fault of the editor. However, the final and correct list of new members is as follows:

Natural Affinities.

"There seems," a Northerner once observed to Senator Morris Sheppard, of Texas, "there seems to be a strange affinity between a colored man and a chicken."

"There's nothing strange about it," smiled Sheppard. "One is descended from Ham and the other from eggs."

Nothing Doing.

"Can I interest you in an attachment for your typewriter?" asked the agent as he entered the office.

"No chance," growled the manager. "I'm still paying alimony on the strength of the attachment I had for my last typewriter."
