

SOCIETY AND CLUB MEETINGS.

Dr. Tanquary Addresses the Horticulture Society.

The Horticulture Society met in special session Wednesday, January 26. The election of a new Secretary-Treasurer was necessary owing to the fact that the former officer, H. I. Sanders, had withdrawn from college. The society regrets very much to lose Sanders and his absence will be keenly felt. After this business was dispensed with the president, Mr. Brison introduced Dr. Tanquary, the speaker of the evening.

Dr. Tanquary who had just returned from Mexico, read a very interesting and detailed report on his investigation of the Pink Boll Worm in that country. Accompanying this report were numerous photographs which readily showed both the nature and extent of the infestation. After completing his report he discussed and answered many questions that members of the society brought up. The society was glad to welcome quite a few visitors among whom was Prof. Bilsing, the head of the Entomology Department of the college. The society then adjourned after a very interesting and profitable session.

Captain and Mrs. Tuttle Dine With Infantry Staff.

At noon Sunday, Colonel Cape and cadet officers of the Infantry Regimental Staff had as their guests for lunch at Sbisas Hall, Captain and Mrs. L. A. Tuttle. Captain Tuttle recently entertained all the staff officers of the corps at his campus home where they met Mrs. Tuttle, who had joined her husband here with their little daughter.

SCOOPS.

The greatest disappointment in a woman's life is when she tells a man to behave and he behaves.

—Ex.—W. B.

The index to character are those arts that never lie, those that contain windows to the soul, those which radiate the soul's sunlight and the wrath of an angry mind.

Confidence is that which you know you can do. Conceit is what the other fellow thinks you think you can do.

Anxious inquirer: Do moving pictures hurt the eyes?
Movie Fan: Not if the actress is pretty.

All's fair in love and war. That may be but the most striking resemblance lies in the fact that most is accomplished in the holding attack.

Our idea of a lovesick bird is one who not only fails to appreciate his meals but also wanders over the Campus looking for his trunk and then finds it in the room adjoining. Boy page Mr. Patter.

Q. E. D.

I saw her in the ballroom
A figure most divine;
A shape that Venus might have liked
Superb in every line.

I saw her at the sea shore,
The contrast made me sigh;
I cannot help believing now
That figures sometimes lie!

BULLETIN BOARD

New Fish: "Do they blow two horns for school?"
Old Boy: "No, they blow the same one twice."

J. Steele: "I want some good current literature."
Librarian: "Well, here's a good book on Electric lighting."

Woodrow Wilson: "Mr. Scales can you give me an example of density?"
Mr. Scales: "Well, I -er- I don't know—er—"

W. W.: "A good example sit down."
Prof: "Why were you late to class?"

Fish Hubby: "The bugle blew before I got here."

You tell 'em X-ray, you can see thru it.
Wanted: R. B. Thomas the return of a Junior Pin. P-L-E-A-S-E.

Fish: "Say, Mr. Scales can a man take Chemistry as long as he wants to?"

Bill Roper went to Waco to see his girl but was disappointed as she was very busy seeing her fellow leave town.

Fats Starr now has a clear title to the Rice Hotel as the porter confirms the statement that the dime Mr. Starr gave him was genuine. Mr. Starr has decided to sell this piece of property or he will trade for some other desirable real estate as the City Hall.

(On the side): Mr. Starr says he certainly hopes that the authorities will not declare Zumo non-reg.

Probably it will affect us all the same way but we take our hat off to anybody that can make Captain Murrah get a haircut and study Huxley's Essays.

Company "F" Notes.

We should be and are proud to see the College add another branch of the Service to our R. O. T. C. Unit, but we regret to lose men to this new Air Service branch. The following men have been transferred to the new unit: Junior, J. E. Gardner; Sophomores, P. W. Burns, A. Dahlberg, J. H. Edgar, W. C. Hale, O. A. Proehl, and A. Watson; Freshmen, W. J. Laswon and B. F. Yates. These men have our best wishes and we hope that they are successful in their new organization.

Fish Dan Peavey has been confined to the hospital for the past few days. We are glad to hear and report that his condition is improving and we wish for him a speedy return to the Company.

Some of us who are taking the course in Agricultural Administration seem to think that from the amount of outside reading required of us by our various professors the Library had better order an additional supply of books on the different "Oologies."

The Fish of our company have been wondering whether or not "Buzzard" Proehl is a married man.

Sophomore to "Frog" in F Company: "How many Second Lieutenants are there in F Company?"

"Frog": "Five, sir, Parks, Ragsdale, Maxwell, Mortensen, and Horn." Sophomore (questioningly): "Horn?"
"Frog": "Yes, the one that is growing the 'cute' little moustache."

CHESS TEAM COMPLETES TOURNAMENT.

The Student division of the College Chess Club has just completed its tournament which started immediately after Thanksgiving. Each participant played every other player three games, the winner of each set receiving one point. Following is the score by sets of three games each:

He: "What would you do if I were to kiss you on the forehead?"
She: "I'd call you down."

CARRIED OUT IN A MUSICAL GALE.

Cortez Potts, Dressed up fine,
For he intended that evening,
With his girl to dine.

He put on his serge,
And his whitest stock,
And in a box of bon-bons,
He soaked his last rock.

He'd gotten a close shave,
And a haircut, too,
And between the close cut
His ivory done showed through.

He met the fair maid,
And they began to talk;
As they promenaded
The Military Walk.

The brainless "fish" band
Was out that day,
And up the Military Walk
They began to play.

Now a bunch of fish,
They never fail,
A chance to carry a saph
Out in a gale.

And when the band saw Cortez,
Out with the Miss,
They just couldn't fail
On a chance like this.

So they ganged around the couple,
Both left and right,
And the discords they made
Were an awful fright.

Potts turned white
Then changed red,
And the color quickly rose
Even to his close shaved head.

To say he was rattled,
Is putting it mild,
Poor Cortez
Was simply wild.

And as the crowd around
Began to laugh,
Cortez was as lost
As a frightened calf.

What the fish got
Later that day,
I will not at present
Stop to say.

STRANGE TO SAY

My pa is a traveling man and
I declare to you that traveling men
May be likened to basket-ball

Because
Each have their charistic side lines.

To make their goals they keep
entraining
And, at any time, are liable
to drop in.

Basket-ball requires two forwards
and
Two guards, while some traveling
men are

Too forward and others, like pa,
are
To guard against such as me.

Ma says she once saw a resemblance in
The two sports when pa went to
Court and tried to ring her by

Using lots of english.
Pa says the only connection that
he ever

Saw between the two was when
I was of cradle age and about
3 A. M.

Every morning he would hear a
Basket bawl
And—well that's where he makes
The connection.

YOU TELL 'EM.

He spoke to her quite harshly.
"Why don't you dress before you
start?" he said.
"I'd just as soon see you put on your
stockings in the carriage as your
gloves."

"Yes, she answered, simply," most
men would."

BEFORE BREAKFAST.

Say, Colonel Cape, did you find Dr. Ball the other day, when you went into his office at the first door to the right on the third floor?

When Captain Edwards received his unofficial promotion, he had at least one sympathizer—one of our beautiful stenographers who lends so much glorious local color to these drab surroundings sat on the steps of old glory and shed bitter tears of grief and indignation at the atrocious act.

There is no rose without a thorn, eh, Crippen?

The Chemistry Department is getting up to date; they have installed a still. By the way, where were all of the Senior Ch. E's. last Tuesday?

Probably the most popular resort during the Between-Term Holidays was Prexy's office, especially if we didn't have the necessary kale.

Whenever Major Morris wants to instill some hilarity into his Senior Bull Ties section, he starts playing with Potts and Pans.

Ven Varden and Vard have valked away, they "have vent."

We enjoyed Mr. Brackett's show very much. We sat in the corner, where we could neither see nor hear it.

I wish that kid would quit yelling—Aw, letterblair!

When taking a girl to the movies, it is always advisable to have beforehand thorough understanding what the show is going to show.

Charlie Nitch hired a nigger to do some pressing for him. The coon made it a point to be late, day in, and day out. One day, however, he was there first, and Charlie, wanting to show his appreciation, delivered himself thus: "You're early here, of late, you used to be behind, before, and now you're first, at last!"

AT THE OTHER SCHOOLS.

University of Virginia.—Owing to the fact that the Harvard track team has two men that have negro blood, the U. of V. has cancelled the proposed meet with this team. The U. S. Naval Academy has also cancelled their meet with Harvard for the same reason. There are so many Southerners on each of these teams that embarrassment would surely result.—College Topics.

L. S. U.—Earl Ewen, a freshman at the University of Louisiana State, has been appointed captain of the machine gun company. This is the first freshman to ever hold this rank. Ewen is an engineering student, and was a captain in this branch of the service during the World War.—Reveille.

Colorado Aggies.—The Colorado Agricultural College took third place in the National Western Stock Show. The placings were very close as Kansas won first with 3,623 out of a possible 4,000, Nebraska second with 3,483, Colorado Aggies with 3,468.—Rocky Mountain Collegian.

Baylor-Belton.—The custom of the college seniors of wearing the Oxford caps and gowns to chapel and such other occasions has been revived. The re-appearance of this custom for the first time was on Jan. 16.—United Statements.

Burleson College.—The Burleson College has just started a student's paper. It is put out by the Junior class.—Burleson Burr. (We congratulate Burleson. From the running start they have taken, we predict a great future for this publication.)

SCANDALOUS!

T'was a dark and dreary night.
(Tragedies always await such a time.)

How did Furneaux that Steele stole silently into the room and kissed his lady Love? Awakening from his Knapp he Wendt in a run across the hall to the scene of action, just in time to hear the fair damsel say "Dewitt don't you and Albrecht ever shave? How dare you scratch my face with those awful whiskers."

The Key to the scandalous affair still remains with Wooley, who is Ehlert to the situation and wont divulge the secret but seems to Foster it in his own mind.

But Hale! Little Boykin tell you all about it. The secret at last—"If she won't let a potato masher how can a lemon squeezer?"

THE UNIVERSAL CAR

The FORD SEDAN

THIS splendid car is growing more popular every day because every day the demand for the enclosed car increases in volume, and when you think that the Ford Sedan, with all its comforts and conveniences—an enclosed car, handsome in appearance, roomy for five passengers, nicely upholstered, sliding glass windows which make it an open car in a minute or so, or a tightly closed car that is dust-proof and water-proof—ready for service every day of the year, rain or shine, summer or winter, and then think that this car is lower in price than any touring car (except the Ford car) and you will not wonder that we ask you to leave your order for a Sedan as soon as possible that we may be able to give you reasonable delivery.

Of course, you cannot forget that matchless and reliable "Ford After-Service" that follows every Ford car the world over—always within arm's length a reliable Ford dealer or authorized Ford garage that can tune up your car and keep it in running condition every day in the year. We want your trade.
