

“Y”
NEWS

Dr. John R. Mott, International Sec'y of the Young Men's Christian Association was the outstanding speaker at the State Y. M. C. A. Convention held in Dallas Saturday. The local Association was represented by D. D. Steele, president; W. D. Seals and A. L. Parke, members of the Student Cabinet. A preliminary conference was held just prior to the state assembly at which time various methods of "Y" work were discussed by representatives from various institutions of Texas. These discussion groups proved very valuable and the delegates received new ideas and plans for making the work more effective on the Campus. Dr. John Erhard, State Student Secretary led in these discussions. The delegates were very fortunate in having another opportunity of hearing Sherwood Eddy who was at S. M. U. at that time, and from their report, his messages there exerted a wonderful influence on the students of the University. At every meeting many were turned away for the lack of seating accommodations.

The delegates were entertained by S. M. U. and the representatives from A. and M. were especially favored by being invited to dinner in the girl's dormitory. This was a new experience for them, but they managed to survive the shock of such a dazzling array of beauty, and came out contented and full.

The first meeting of the Conference with Dr. Mott, was held Saturday morning at which time various Associations Methods were discussed. At noon a luncheon was given at the Oriental, and Dr. Mott spoke on the World Problems and how we can best meet them. There were about

250 present at both meetings which Dr. Mott spoke, and his messages were received with great applause.

From Dallas Dr. Mott went to Austin where he delivered two addresses. From there he went to Houston where he delivered his last address in Texas this year. Those in attendance at the various meetings with Dr. Mott were very fortunate in hearing such an outstanding Christian leader. Dr. Mott's extensive travels in the foreign countries has brought him in direct contact with world conditions, and his wonderful and easy delivery with his winning personality makes his especially appealing to an American audience.
