

SOBLET'S

Did you ever have those springtime blues so bad that it was impossible to keep still

and then too you are funkng that calculus. Then one day you receive a letter from that

girl whom you have been writing to ever since you put on long trousers, saying that she

will send you that picture for which you have been begging and was never before able to

talk her in to sending. With this bit of good news your hopes mount high and you greedily await

its arrival. In a couple of days you jog over to Hayes's sub-station in the Main build-

ing and there you find that tissue covered package for which you have hereto vainly beg-

ged for. When once again in the secluded privacy of your room you hastily unwrap and there

on a bit of cardboard the sovergein of your heart smiles up at you. Transported to paper

She seems even more beautiful than ever. And then the self satisfying idea occurs that this is the

time to show it to one of the boys from the old home town. So

you go over to his room walk in and stand around until he finally asks you whats in that package and then with a feel-

ing of exaltation you thrust that fac-simile of that lovely vision in his face. Then with

a look of surprize your friend ejaculates "Why its just like the one she sent me last year."

And turning your head you see a similar photograph reposing on a dusty corner of his bureau.
