NEW GRANDSTAND BEING ERECTED ON KYLE FIELD

Long Need For Larger Baseball Bleachers Alleviated by New Structure.

A new grandstand that will be completed before the opening of the current baseball season, is now under construction on Kyle Field. The old stand has been torn down and some of the material is being used in building the new one. The new structure is to be located in such a way as to give a clear view of the baseball diamond and track, and thus it will serve to seat the crowds which attend either of these athletic events. The seating capacity of the grandstand now being built is to be at least 3500. This new addition to the athletic field is being built out of lumber, and will not be permanent but will serve the need for several years in the future.

Austin Brothers of Dallas have been awarded the contract by the Athletic Department to erect steel bleachers on the west side of the football gridiron. The bleachers will extend from the twenty-yard line on one end to the twenty-yard marker on the other, and will be twenty rows in height with two rows of box seats down along the front. The cost will be approximately \$12,000, and the seating capacity will be 2500. The bleachers are to be completed before September 1923, and these together with the bleachers on the east side of the field will give a total seating capacity of 8,500; this will be sufficient to accommodate all for the various games except the Aggie-Longhorn clash on Thanksgiving, at which time temporary wooden seats will be erected at each end of the field.

During the past four years great improvements have been made on Kyle Field, and it is to the credit of the present Athletic Department officials that most of this work has been done.

PROMINENT MEN VISIT COLLEGE

Leading Dairymen of the State of Texas Come to A. and M. College.

Five of the foremost dairy farmers and dairymen of the state were on the campus the past week on a visit to the college to see the agricultural school especially the dairy department, with the view of ascertaining the exact status of the dairy department in regard to the future development and the permanent needs in the form of appropriations and such.

Those who came were: Mr. Metzger of Dallas, J. T. Orr of Dallas, A. E. Flowers of Dallas, Mr. Laird of Fort Worth, and Ed C. Lasater of Falfurrias. The Kream and Kow Klub held a meeting which was attended by the above men and Mr. Laird and Mr. Flowers each gave a talk relative to dairying.

Mr. Laird emphasized the necessity of having a vision or aim in life and the courage and conviction to keep striving toward the set goal. He further stated that no college man should be afraid to begin at the bottom in his line of work and work up and that at graduation the realization should come that all knowledge was not revealed to the college man and that it probably never would be, but to strive in securing and using as much knowledge as possible in life.

This visit shows the interest which the men in the industries of the state are taking in the work of the college and when everybody in Texas begins to realize that A. and M. is their school, for them to use as much as they please, A. and M. will become what it should be.

FARM BUREAU FEDERATION ASKED TO HOLD NEXT MEETING AT COLLEGE

Dean E. J. Kyle of the Texas Agricultural and Mechanical College extended an invitation to the Federal Farm Bureau to hold its next annual meeting at College Station. The Federation moved to recommend to the Board of Directors that the next convention be held at the college.

DRAMATIC CLUB PREPARING FIRST PLAY OF YEAR

The Dramatic Club of A. and M. will offer its first play of the year to the public on the night of March 3rd. at Guion Hall. The name of the play is "Charley's Aunt" and some idea of its popularity may be had from the fact that it is being presented in sixty-three of the leading colleges of the country this year.

The play, dealing with the many mixups of a college man in love, is a mirth-producing affair from beginning to end. The cast has been named from members of the Dramatic Club and is practicing daily under the direction of Prof. Harrington. It will be the first time in the history of the College that an all-student cast will be used. Even the stage settings will be taken from a model made by a student.

The funds derived from the plays this year will be put to a different use than those heretofore. They will go to form what will be known as the William B. Bizzell Loan Fund. This Fund will be maintained to loan money to Senior students in need of financial aid to complete their college education.

No expense of time or work will be spared in making this first play of the year a grand success.

LIBRARIAN'S FATHER ILL.

Information was received Thursday last from Thomas F. Mayo, College Librarian, in New Orleans that the condition of his father has greatly improved and that he expects to return to College Sunday. Mr. Mayo was called to his home over a week ago when he received news of his father's serious illness.

The above named selections were made by a first and second team being selected by the Coaches of each organization and sent in to General Supervisor H. H. House, where they were collected and the player that received the most nominations was judged to take the honor bestowed upon him. Coach House is to be congratulated for the general success of the Inter-Battalion League and this plan of selecting the All-Battalion team.

The above named players, Coaches of all the Organizations, Coaches of Varsity, Athletic Council and Friends were honorees of one of the most elaborate banquets ever placed before any group. It was due to the untiring efforts and arrangements of Mr. W. A. Duncan that made the "feed" so pleasing. The programs were very thoughtfully and neatly prepared by Coach H. H. House and they are a treasure within themselves.

At the head table were Col. Ike S.
