

most popular members of the Senior Class. His always genial friendliness will prevent everyone who knows him from ever forgetting "Sol."

Fred P. Jaggi, last year's first sergeant and this year's Captain of Troop "A" Cavalry, is the other R. V. Second Lieutenant. After Fred weighed the matter thoroughly, he changed, for the good, from an engineer of mediocre ability to a student of agriculture. Since the change was made, he has traveled the route with his classmates, and his office is only one way in which respect and recognition have been accorded him.

All of these men have long before demonstrated their deservability. The offices which they now hold bear with them traditional honors, bestowed upon very few but doubtlessly aspired for by many sons of Aggie-land, which have stood out among the foremost distinctions in A. and M. since the R. V. company was first organized many years ago. These men can now realize the gratifications of the coveted honors to which their leadership makes them entitled.

A. AND M. DIRECTORS HOLD SESSION IN AGGIELAND

(Continued from Page 1)

The board members seemed temporarily satisfied with the substitution of well constructed bungalows in place of the water strainers used last year.

The new horticultural experiment station which was established with an appropriation of \$50,000, by the last Legislature as a substation of the Experiment Station of the College is to be located at Llano Grande, near Mercedes in Hidalgo county. The location came on the recommendation of a special committee of the board and scientists of the College which recently made an investigation of the sites offered in the Rio Grande valley.

The board reorganized by re-electing all the old officers, L. J. Hart of San Antonio, president, F. M. Law of Houston, vice-president, and S. G. Bailey, executive secretary to President Bizzell.

PREPARATIONS FOR HOP ON THANKSGIVING

(Continued from Page 1)

preciation than can ever be accorded them. This is especially true of the team this year. Remunerating them for all they do would be an impossibility. But the custom, long since established and practiced in Aggie-land, makes the annual dance given in their honor a more fitting token of appreciation. It is the privilege of the students to give this dance, and this is one more year that it must be put over in grandeur.

The Senior Class stated preparing for the hop Saturday afternoon by electing the chairmen of the six committees to have charge of the dance. The men elected were W. J. Hancock, Arrangements Committee, C. W. Moore, Finance; S. C. Bartlett, Music; H. A. Murphy, Programs; H. M. Tatum, Decoration; and Paul Cowan, Floor. These men will have the burdens on their shoulders; the most that the rest of us can do to help them is too little. Just bear in mind that an A. and M. student body has never fallen down behind their football team, get in line with that Texas queen, and we'll all go on with the dance.

OLDEST CAMPUS STRUCTURE NOW BEING REMOVED

Brick Residence Built of Materials Manufactured on Campus Gives Way For New Extension Quarters.

Work of removing the old brick residence on the corner lot west of the Research Administration building will begin within the next few days in preparation for the erection of the administration building for the Extension Service.

This is one of the first buildings to be constructed on the A. & M. campus and was made from brick manufactured here.

The general contract for the new building has been let to the Walker Construction Company of San Antonio. The heating and lighting contract for the building has been let to A. T. Cheaney of Waco, contract for electrical work has been given to Graham and Collins Electrical Company of San Antonio. It is expected that the site will be cleared within the next few days and construction start in thirty days.

DRAMATIC CLUB BEGINS YEAR' ACTIVITIES

(Continued From Page 1)

formulated will undoubtedly arouse more interest than an A. and M. dramatist has ever before perceived of. Besides the entertainments with which the students are to be supplied, many other surprising features are to arise from the energy instilled by the members of the club. Two big financial aids that the club will donate are the expenses of the dairy judging team and another addition to the William Bennett Bizzell Loan Fund.

Experience is not a requirement for admittance to the club; neither has it been required of the entrant to the Public Speaking classes. The finished product is being sought after, and as Prof. Harrington has frequently asserted, he lets nothing which is reasonable stand in the way of his classes' success. To begin with, he has provided for an elaborate entertainment at the Green Parrot Tea Room to feature the second meeting of the club tonight. In the meantime, rehearsals for the first presentation have begun, and sometime before long Guion Hall will be the scene of something new in the way of stage setting and entertainment.

THE IDEAL ROOMMATE.

Does not snore. Knows lots of women and is generous about it. Does not rave about the "one and only." Wears his own clothes. Is the same size as I am. Lends his clothes willingly. Uses only half the dresser and a quarter of the closet. Is good for a newspaper story every day. Takes our courses. Is better in them than we are ourselves. Does not turn on the light when he comes in late. Can find his own bed when he does come in. Wears his own shoes, furnishes shoe polish.—Flamingo.

Contagious.

"I don't know what is the matter with that child. He won't stay in the same place any length of time."

"He probably got it from his nurses."

ROOM 3, M. E. BUILDING

24-Hour Kodak Service

AT FOUR A. M.—It was pitch black in the parlor. Three hours ago Chlorine, the naughty vamp, had turned out the light. The clock on the mantel struck, "One, two, three, four". It was a strange, hollow sound echoing through the silence. A milk wagon rattled-by. Again all was still. Then from the divan corner of the room came a few faint noises. "Smack—smack—ummm—gulp—gurgle—ummm—smack—sh—sh—" then a soft sighing sound. The water in the radiator had begun to boil.—Handout.

Defendant—Yerroner, what would I be wantin wid that man's cheap watch?

Judge—How do you know it was a cheap watch?

Defendant—My lawyer wouldn't give me a cent over two dollars on it.

Starting Him Right.

Mr. Eichenstein returned home from business and found his wife rocking the baby and singing, "By-low, baby, by-low; by-low baby, by-low—"

"Dots right, Sarah. You teach him to buy low, and I'll teach him to sell high."—Everybody's Magazine.

His Choice.

Dentist—What kind of filling do you want in your tooth, son?

Boy—Chocolate, doctor.—Medical Life.
