NUMBER 2

SAY AGGIE

We all like good fried chicken, rare or well done. Our mouths fairly water when we think of eating fried chicken; but eat fried chicken three times a day for several consecutive days and one would trade a whole chicken for one small slice of bacon. "Variety is the Spice of Life." We have had three months of vacation-for some it was a period of hard work; so, down deep in our hearts we must admit that A. and M. College Life is not so bad after all.

What do you think of the conduct in the Mess Hall this year? From the showing so far, it would seem that practically everyone prefers to eat in an ordinary manner and discuss clean topics at mess. The corps deserves commendation on this and we hope that such order will be maintained so that one would not be ashamed to bring his mother to a meal at any time.

There is another place on the campus that deserves more attention to conduct on the part of the corps. This is the Assembly Hall. As we have shown that we can act like gentlemen in the Mess Hall. Let's do it at the Assembly Hall too. Try to restrain that impulse to pass a few bright remarks, and save your witty sayings for the "Bat". Full credit will be given for such contributions How about it, men, let's have a show come to.

of the senior section in the Assembly character that he was. Hall? Why make the seniors policemen to force the students to act regard for others should accomplish this? It is up to the student body to prove that force is not needed.

The offer of the "Y" of a senior club room is much appreciated. There is need for such a place where seniors may spend their leisure hours and become better acquainted. When opened, it is hoped that seniors will take advantage of it.

CLASS OF '25 LOSES PROMINENT MEMBER

H. L. Peoples Passes Away After Increased Enrollment is Paralleled by Operation in a Dallas Sanitarium.

"SHORTY" PEOPLES.

A TRIBUTE.

(By Tommie Strange)

The Great Master in His infinite wisdom has called to His Heavenly Kingdom one of the sweetest personalities that ever brightened the doors of the A. and M. College of Texas. On the night of September 4, 1924, the soul of H. L. (Shorty) Peoples, took flight to the mansion which his Father has builded for him in the high Heavens.

Tears blended with the grief shaken sobs of a soul that mourns that the ladies of the campus will his passing cannot bring him back to gladden once more the hearts of those that knew him. No eloquence can
