

## DAIRY HUSBANDRY STOCK JUDGING TEAM RETURNS

Many Interesting Dairying Communities Visited. Prominent Herds Studied by Members.

The College herd has returned from the Tri-State Fair at Amarillo where it won practically every class that it was eligible to enter. A total of fourteen blue ribbons attest to the high quality of the herd.

The Dairy Department did not take enough cattle to fill out all the classes, but the sixteen entered brought back fourteen firsts, one second, and one third. The herd won five Senior and one Junior Championship and six or all of the Grand Championships. The awards total four hundred and eighty dollars.

There were nine entries in Jerseys, three in Guernseys and two in Holsteins. The Jerseys particularly attracted attention because of their excellent quality, and Professor Grout was well pleased with the showing of the herd as a whole.

### A. H. MEN WORKING HARD TO MAKE TEAM

A. and M.'s candidates for the International Live-stock Judging team have been attending strenuous work out ever since the twenty-third of September. Every Monday and Wednesday finds every man present at five o'clock practicing placing and giving reasons until dark, and on Tuesdays, Thursdays and Fridays the work begins at three. On Saturday the practice begins at one o'clock.

At present seventeen men are working for a place on the team. These men are D. Creveling, F. I. Dahlberg, L. Dodson, O. H. Kimball, C. B. Johnson, J. Graham, C. G. Matern, F. M. Stubbs, B. H. Hopkins, L. Foester, V. R. Kennedy, P. Myers, H. F. Tickle, C. A. Williams, A. A. McKimney, J. A. Keathley, and H. K. Henry.

For the purpose of putting the contestants under fire Mr. Darnell has planned to hold a number of contests between the men. The first of these tests was held Saturday, Oct. 4. Four cattle were judged and reasons were given on each class.

The team will be handicapped this year in their preparatory training as in the past it has received a very valuable work-out with the live-stock at the Dallas Fair, while this year the live-stock show has been called off. With characteristic Aggie spirit, the men are working harder to overcome this obstacle and have the serious purpose in mind of preparing themselves for the greatest test of live-stock judging teams, the International, which will be held in Chicago on Saturday, December 24.

The college is becoming accustomed

to seeing Mr. Darnell make his yearly sacrifice in order that the team may receive the best of training but this year he is working harder than ever to overcome this obstacle and have the serious purpose in mind of preparing themselves for the greatest test of live-stock judging teams, the International, which will be held in Chicago on Saturday, December 24.

The college is becoming accustomed to seeing Mr. Darnell make his yearly sacrifice in order that the team may receive the best of training but this year he is working harder than ever before. The Bronze Bull, has already graced the rotunda of our Main Building on two occasions, and to return it there as its final resting place is the determination of every member of the squad. Mr. Darnell himself appears unusually optimistic over the chances of success, and went so far as to admit that he had high hopes of A. and M. being the winning team.

"An unusually strong squad is out," and it is to be hoped that the members can get the necessary training to bring back the Bronze Bull this year as the permanent property of the College."

### D. H. JUDGING TEAM REPORTS INTERESTING TRIP

Some interesting sidelights on the trip to Milwaukee have been disclosed by the members of the Dairy Husbandry Judging Team, which returned last Thursday from the trip. Among the many unusual happenings on the trip was a bus ride across country through Waukesha County Wisconsin—the most famous dairying section in the United States. While in Milwaukee the team visited an old English convict ship, launched in 1790 in India and which is the oldest ship afloat. It is a relic of the olden

days when men were hung for stealing.

Guy Powell, Thad Grout, and Bassett Orr were in the final contest. R. W. Wilson, W. A. Wurzbach, and L. S. Moore were the alternates. The team was accompanied by the coach, Professor A. L. Darnell.

Professor G. P. Grout joined the team in Milwaukee. On the way to the National Dairy Show the team stopped in Dallas for several days, then went on to the Kansas State Fair at Hutchinson, Kansas. Famous herds around Kansas City were seen, and a visit was made to the famous Longview Jersey Farm at Des Moines, Iowa. Ex-Secretary of Agriculture Meredith's farm was also visited. At the Western Dairy Cattle Judging Contest the Texas A. and M. team placed fifth in the contest but first in Jerseys. After stopping at several other places in Wisconsin, among them the University of Wisconsin.

In the National Dairy Show the team placed tenth among twenty-four states competing. This showing was

a good one, and means that Texas A. and M. can rank with the best agricultural schools of the country.

Jackson who has just received a picture of the girl he has corresponded blindly with for a year. "My God, what a map. How'll I ever get rid of her?"

Jillson: "Well, you can always send her one of your photos."
