Corps Dance Saturday Night

The first corps dance of the calendar year will be held next Saturday night in the Mess hall annex.

This is the first dance of the year and one of the last to be held in the Annex.

Now is the time to show all of the boys the new criss-crosses and flourishes that you learned during the holidays and that Rudolph Valentino has nothing on you.

Two Dances Between Terms.

There will be two dances held during the short lapse between terms this year. There will be the Barn-yard dance that promises to be unusual and a regular corps dance on Saturday night.

The secretary was rather indisposed the last time that he was interviewed but full particulars concerning the dances between terms will be announced in the next issue of the Battalion.

PEP INJECTERS By Gloomy Gus

Name that day your best when you have conquered hate and prejudice.

"Music is a thing of the soul."

A preacher is a man who talks to people who think he means somebody else.

Money certainly talks, but rarely gives itself away.

A man marries a woman for what she seem to be. But nine times out of ten a woman marries a man for what he might have been.

A coat of whitewash often answers the purpose of a cloak of virtue.

The straight and narrow path is easy enough for those with corresponding figures.

No man has faced life in full until he has provided for a brave exit.

Neither morals nor money can flourish in a soil of group intolerances.

Published in the interest of Electrical Development by an Institution that will be helped by whatever helps the industry.

—and even electrical engineers are needed in the electrical industry

Nowadays the electrical industry needs so many types of men that it may be well to point out it still needs engineers, good engineers—but with a difference.

Vision, initiative, technical skill are needed qualities, now as always. But here's another. Can you work on the team? Will you be able to back up the other members in the manufacturing and commercial ends of the business?

The engineer today should be no recluse in a laboratory. He can make his work more effective once he sees how it relates to the work of men around him.

In your studies and college activities, you have the chance now to develop this point of view. In the broader activities of the electrical industry, you may have the chance later on to carry it further.

INTERCOLLEGIATE NIGHT TO BE BROADCASTED

Schenectady, N. Y., Dec.—With more than 300 former students of universities and colleges from all over the United States expected to participate, what is believed to be the first intercollegiate night on the air is to be broadcast from WGY, the General Electric Company broadcasting studio here.

Well known college airs will be sung by groups from the various institutions represented, following which each group will give the best of its college cheers. An intercollegiate quartette comprised of the best voices to be found among the membership of the Edison Club, the General Electric college men's organization, will sing several numbers, and numerous instrumental numbers will be rendered by the Club orchestra.

As we understand it, mistletoe used to be romantic and now its superfluous.

Intercollegiate night on the air is being sponsored by the Edison Club. Those in charge of the affair state that Schenectady is one of the few places in the country from which such an entertainment could be broadcast. They base this statement on the fact that there are more young college graduates here than in most cities, since so many graduates join the General Electric forces immediately upon finishing college.

When you walk, And When you fliv, Look both ways And try to live.

A Woman Knows.

London Tid-Bits: "My dear," remarked Jinks, who had just finished reading a book on "The Wonders of Nature," "this is a remarkable work. Nature is marvelous! Stupendous! When I read a book like this it makes me think how purile, how insignificant is man."

No Doubt.

Pitt Panther: Wife—A little bird told me you were going to buy me a diamond brooch for my birthday. Hubby—It must have been a little cuckoo.

You can now go to Europe as cheaply as you can live at home, but not nearly so comfortably
