

MID-TERM GRADS SHOW INCREASE OVER LAST YEAR

Ten Men to Receive Degrees at End
Of First Term and Go to Work
Immediately.

Commencement Day will be January 30. Many old-timers will be surprised, but times have changed since the days when Commencement was held only in the spring. This year there will be ten candidates for degrees to be awarded at the end of the first term. Most of these men have speeded up their College days through the medium of the summer school and will enjoy a distinct advantage over the spring graduate who must enter the annual spring race of thousands of college graduates. Practically every one of the mid-term grads is already located and will start work immediately. This is in pleasant contrast to the difficulties many spring graduates experience in getting located at a time when the demand for college graduates is less and the supply in greatest abundance. The winter class is growing in numbers every year and more and more men are seeing the advantages of finishing their work at this time. The usual gala days of spring will be lacking when these men receive their degrees, but they deserve a great deal of credit and encouragement. They have shortened their work by sacrificing their holidays and vacations, and staying on the job during the long hot days of summer. Give them a hand of congratulation and encouragement whenever you meet them. Following is the list of candidates for degrees to be awarded January 30, 1925:

- Lewis Edwin Bailey, (Agr.) Bryan.
- Allen Dickson Boger, (A. A.) Vernon.
- John Fears Carmichael (R. E.) College Station.
- Wayne Bascom Frederick (A. A.) College Station.
- Alexander Dalton Magruder (A. A.) San Antonio.
- Frank Messenger (A. A.) Bryan.
- Robert Joel Milligan (C. E.) McKinney.
- Charles W. Terry (C. E.) Dallas.
- Richard Overall Wilson, (C. E.) Coleman.

Students at Clemson College, S. C., recently struck for more and better food, a matron for the dining room, and reinstatement of half of the student body who walked out a week before.—The New Student.

CRANE BEAUTY IN THE OPEN; CRANE QUALITY IN ALL HIDDEN FITTINGS

For many home-makers, the clear white of porcelain or enamel fixtures is the essential seal of cleanliness in bathrooms.

To such the Crane *Tarnia* bath will appeal instantly. Of cream white enamel on iron, it is set here in the same spotless vitrolite as the walls. It is durable, sanitary, economical.

It is one of a wide variety of Crane fixtures for the bathroom, kitchen and laundry sold by contractors everywhere at prices within reach of all.

In the industrial field, Crane service duplicates on a larger scale in steam, oil, gas and water installations, the Crane standards of comprehensive lines and dependable quality.

TRAGEDIES OF THE WEEK.

When Gap Drisdale and a certain young lady friend of Dollie Magruder's set out to get a graduation present for Dollie they scoured the country for a black sheep. But to no avail — Magruder's "diploma" is white.

A few days ago a "Frog" ran up to Charlie Waugh and handed him a trunk check. "Here's my check Captain, rustle my trunk."

Thinking he was in the class room for section B, Fish Chem., a frog entered, by mistake, one of Mr. Byron Byrd's class when Mr. Byrd was giving one of his pet quizzes. We im-

agined the poor frog reasoned thusly: "If this is the beginning, my Gawd what will the end be?"

Many are wondering who the girls were that "Bub" Rudd and "Chin" Anderson brought down for "Chee Chee" Schwab and Wade Guion to entertain over the week-end.

The world about us is getting in an 'elluva shape when lots of A. and M. "men" are so "young" they can't decide whether they want to be birds and fly in the air or had rather be elephants so they could squirt wather through their noses.

T. E. DEPT. ADDS SHORT COURSE IN COTTON CLASS- ING FOR FEDERAL STUDENTS

The Textile Engineering Department has added to its schedule for the second semester a one-term course

in Cotton Classing. In addition to the actual classing of cotton, this course offers an intensive preparation for the practical fundamentals of the cotton trade. Mr. C. L. Baker, of Bryan, previously connected with the College, has been added to the faculty of the T. E. Dept. to act as an instructor for this group.

Smiles lighten the pathway of life.

Many a wreck is caused by an empty train of thought.

We ought to make less of our differences and more of our agreements.

The true measure of man is not his income but his outcome.

Leave people with memories of what you said and not what you wore.
