

**BAND JOURNEYS TO BELTON.**

Approximately fifty members of the A. and M. Band, led by Bandmaster R. J. Dunn, left College Station, Saturday morning for Belton, where they played for the students of Baylor College. The Band arrived at Temple at 3:30 p. m. and marched to the First National Bank Building, where it played five numbers. As soon as it was learned that P. L. Downs, Jr.—a member of the Board of Directors of A. and M. College who was instrumental in getting the Band to make the trip—was sick abed, the Band marched to his home and played several selections there.

The trip from Temple to Belton was made by automobile. On arriving at the College campus about 5:15, the band assembled and played three numbers. The members of the Band were guests of the College at dinner. At 8:00 p. m. Saturday night, the concert—which is becoming an annual affair began, which lasted until 10:30. The Band played a large number of popular selections, featuring numerous solos. Following the concert, the Aggieband Orchestra played several jazzy dance pieces—which was a fitting feature to climax a successful evening.

The Academia Society—a literary society of the college—invited the Band to play at Baylor College, and it was in charge of the entertainment of the A. and M. visitors. A reception was held Saturday night after the concert in Luther Hall in honor of the visiting cadets. Sunday afternoon, Dr. Hardy, president of the College, entertained the Senior Class of the College and the members of the band at his home, prior to the return of the Band to College Station.

**JUNIOR STOCK JUDGERS ARE DESIGNATED**

(Continued from Page 1)

of the state on account of the quarantine against the foot and mouth disease in Texas, and, therefore, did not compete.

Heading the horse string are a Percheon stallion and mare. The stallion, Jupiter, won second place against strong competition at the International show at Chicago in 1924. The mare, Linessé, was grand champion at the Dallas Fair last year. The Morgan stallion, Alamo, who won first prize at the Dallas Fair in 1924 will compete in the Fort Worth show also. Another entry that is expected to create much interest is the black American Saddle horse, owned by Dr. George P. Grout. He will be taken along as part of the College string, and will be ridden by Miss Geraldine Grout in the saddle horse competition.

Several good type sheep will be shown also, among which are an outstanding Southdown wether and three Rambouillet rams, all of which will be sold after the show.

A CRANE PRESSURE REGULATOR WHICH TRANSFORMS HIGHER PRESSURES TO ANY CONSTANT PRESSURE

**LOW PRESSURE STEAM FROM HIGH PRESSURE MAINS**

Low pressure steam or air delivery direct from higher pressure mains is made uniform and dependable by Crane pressure regulators. Steam for small power units or low pressure heating, constant pressure steam for process heating, and compressed air for blasts, heaters and low pressure tools can be taken from higher pressure mains through this automatic valve at the highest

possible efficiency. Crane regulators are furnished with unions or flanged connections for any ordinary temperatures or working pressure. The economy of operation and unfailing delivery of these pressure regulators are typical of all Crane products. Crane country-wide service provides a complete line of valves, fittings and piping for any steam, water, oil or air system.
