

HIS FAITH unconquerable, his passion for work irresistible, his accomplishment not surpassed in the annals of invention, Thomas Alva Edison has achieved far more than mankind can ever appreciate. February eleventh is the eightieth anniversary of his birth.

Wherever electricity is used—in homes, in business, in industry—there are hearts that are consciously grateful, that humbly pay him homage.

HIGH SCHOOL BASKETBALL  
MEET ASSURED HERE

(Continued from Page 1)

be fifty cents so a season ticket will represent quite a saving if you care at all for basketball. There is also the psychological effect on the players themselves when playing to a big audience. There is no better way to show your interest than to be there yourself so buy a ticket and see the fun.

The various players will stay at the Aggie Land, the Y. M. C. A., and P. G. Hall. If you happen to know one of the fellows or there are any from your home town show him a good time. Nothing of course to interfere with his training, but take him around and show him the college and the college life. In other words don't let him go away and say that the college bored him to death.

There will be about fourteen teams here and in all probability there will be a club here in the college from the same town or district that some of these teams come from. So don't forget to look them up and entertain them for it all depends upon the student body as to whether this tournament will be held here next year or not.

New  
Spring  
Oxfords

We've just received a shipment of new oxfords for young men in the new shades of tan and in black. The patterns are new. Good leathers and comfort and long mileage is built in every pair.
