

WTAW RECEIVES COMPLIMENTS

Radio Station WTAW has made some remarkable records in spite of the fact that their main broadcasts are in the daytime, since there are so many stations on or near their wavelength that the interference is too much for the average receiving set. The program also consist of a large part of speaking, which does not bring in the applause that music does. However, WTAW has been heard in New York City twice this last term, during the broadcast of the New Mexico football game and the chapel exercises January 16. Daylight reception has also been reported by Summit, N. J., Ardmore, Penn; and Pocatello, Idaho.

The primary purpose of the programs of the noon period is to cooperate with the County Agents and the farmers of Texas and thus they consist of talks pertaining to agriculture. These talks are popular, however, as sixty per cent of the applause compliment the speakers, though the musicians are not neglected. Perhaps the most popular broadcasts are the athletic events, but as they occupy so little of the schedule, it is not such a good means of comparison. The music has attracted quite a little attention, as it is distinctively A. & M. The band and orchestra are the most popular with the radio fans.

A request for the report of the Texas National Egg laying contest for the last year received by the State department of Agriculture at Austin from the British East Africa was forwarded to the Poultry Husbandry department of this institution Professor D. H. Reid, head of the department announced. This request for data on the results of the contest came from William O. Smith, Eldoret, Uasin Gishu, Keyna Colony, British East Africa. "Of course, the Poultry department of the A. & M. College is sending out the data and is glad that the work of the college is being followed even to 'the ends of the earth,'" said Prof. Reid.

The following letters have been received by the local "T" Club from the Baylor Athletic Department and the Baylor "B" Club:

"President,
The "T" Club, A. & M. College,
College Station, Texas.

Dear Sir:

It is hard to express in words the profound gratitude and appreciation in our hearts for the beautiful floral offering received from your organization on the occasion of our recent sorrow.

The presence of your representative and other manifestations of sympathy has greatly helped to make the burden of sorrow lighter than would otherwise have been. I am sure it will be interesting to know that your floral offering was placed at the head of the grave of Abe Kelley, Captain-elect of 1927 football team, who was a real man among men,

We do not know why these tragedies happen, but by faith in Him who does all things well, it is our duty and obligation to live each day in such a way as to emulate the lives of these boys whose lives have been so suddenly taken away.

Assuring you of the sincere appreciation of the Student Body, Faculty and Officials of Baylor University and with kindest personal regards, I am

Very sincerely yours,

BAYLOR UNIVERSITY,
By George H. Belew."

"To the "T" Association,
To the Student Association,
A. & M. College of Texas,
Bryan, Texas.

Friends:

The sincere sympathy, the thoughtful expression, the beautiful floral tribute, the personal representatives, the letters and telegrams received from officials of your college, during the profound sorrow recently visited upon Baylor University, will never be forgotten by those of Baylor and for Baylor.

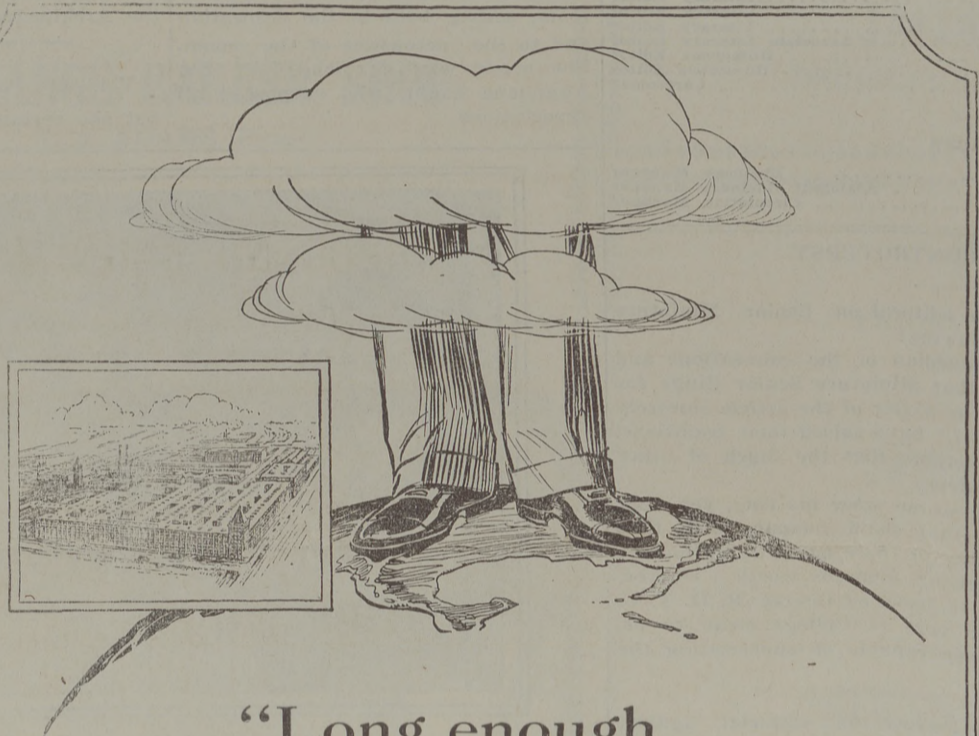

Speaking for the "B" Association, I want you to know and believe that such whole hearted expression from you boys, is appreciated and will always be remembered as one ray of sunshine that pierces a dark cloud which enfolds Baylor in common grief.

Very sincerely yours,

W. A. Little,
President Baylor "B"
Association.

Y. M. C. A. PLANS SUNDAY PROGRAM

The Y. M. C. A. is planning to relieve the monotony of Sunday afternoons. While the plans are not complete, this program will consist of a music and song service, a short religious or semi-religious talk, and a four reel moral, religious or educational picture show. This program will be held in the Assembly Hall, and should furnish a welcome break in the long Sunday evenings.

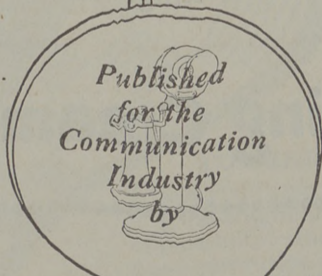

"Long enough to reach the ground"

LINCOLN'S famous answer to the question "How long should a man's legs be?" suggests a similar answer to the question "How large should an industrial organization be?"

Large enough to do its job, of course, which simply means that there's need in this country of ours for both small and big businesses and both can prosper.

The job of providing electrical communication for the country calls for a vast organization backed by vast resources. And that's what the Bell System is.

Here great size has advantages in greater operating efficiency through which its customers benefit, and advantages to those engaged in the industry who find here a wide range of interesting work offering opportunity to men of varied talent.
