

# College gentlemen prefer P. A.

BLOND gentlemen and dark-haired gentlemen, diffident\* freshmen and august seniors . . . Prince Albert is the overwhelming campus-favorite of every type and every pipe. (Yes, the pipes do have a voice in the matter. They can act in a docile, friendly manner or they can be mean. It depends on what you feed them.)

Open a tidy red tin of good old P. A. That first fragrant whiff will tell you why gentlemen prefer Prince Albert. Tuck a load into the bowl of your pipe and light up. Fragrance and taste alone are enough to win you.

But P. A. doesn't stop there. It is cool-smoking. It is mild as Maytime, yet it has plenty of body. It is kind to your tongue and throat. You can hit it up all you like and it never hits back. Try a tin of P. A. You'll certainly prefer it after that.

\*Not too diffident.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

### A COMMENT

The passing of ground hog day and the beginning of the warm spring weather has not yet started an epidemic of spring fever, but many students have been forced to think of the summer vacation period, and incidentally the summer job. Several companies have already notified the students of their intention to employ college students during the summer months, but at present there is not a general talk of summer jobs. It is thought, however, that the most popular subject of discussion will soon be the summer vacation. This applies only to the underclassmen, for the Seniors can look only for the beginning of what they hope to be a good position, and not for vacation. For the others the coming of summer is more of a problem, the trouble being either to get a job or to keep from having to work. The different ways of spending the summer months are many, but probably the most popular way is getting the best job possible. Other ways are, summer school, summer camp, traveling one way or another, or by doing nothing and enjoying life in general. Whatever is done, the three months time generally begins to drag long before school starts again.
