

**"Y" SUNDAY AFTERNOON PROGRAM BEGINS**

The Sunday afternoon program, which the Y Cabinet has planned to furnish the break that has been requested by many students will begin next Sunday, at 2:00 p. m., in the Assembly Hall. The program next Sunday will consist of a fifteen minute song service, a short address by Dr. T. O. Walton, and a moving picture consisting of The Heart of Lincoln, five reels, and Mount Carmel, on reel. There will be no admission fee, obligations, or anything else attached to this entertainment. It is the result of the action of the new Y cabinet and secretary, and is only one of the recent signs of life and progress in our Y. Let us show our appreciation by cooperating to the fullest extent.

**MEMBER OF BOARD OF REGENTS DEAD**

Governor Dan Moody was notified Saturday of the death of Steve A. Lillard, member of the board of regents of this institution. Lillard's death was due to internal injuries received in an automobile accident some six weeks ago. Lillard's companion was instantly killed, but after the accident Mr. Lillard was able to return to work. Last week the injuries began to have serious effect and he was taken from his home at Ranger to a Dallas hospital for an operation. His death occurred in the hospital.

Mr. Lillard was a graduate of A. and M. College, and was a member of the football squad during his enrollment here. He also attended Texas University for a while. He served in the World War, holding the rank of captain.

At the time of his death he was a prominent financier and leading banker of Ranger and a member of our board of directors.

**BRYAN D. A. R. ESTABLISHES LOAN FUND**

At a recent meeting of the Daughters of the American Revolution, it was decided to provide a student loan fund to aid some worthy boy to attend A. and M. College. About sixty dollars was subscribed at the meeting, which has been turned over to President Walton. The chapter plans to raise this total to several hundred dollars in the next few years.

*Saving Lives and Sparing Lives in Modern Hospitals*

**M**EDICAL SCIENCE not only aims to save lives, but to institute economies in hospital operation whereby lives are spared for more vital work than running an elevator.

Nothing could be more ghastly than to have a patient, on his way to the operating room, stuck in an elevator between floors. Modern hospital authorities are particular in selecting elevator equipment of the safest and most trustworthy manufacture.

The latest development of Otis Collective Automatic Control permits the use of automatic push button elevators in the highest class and size of hospitals, where heretofore the automatic type was limited to low buildings

where the elevator service was infrequent.

Collective Control is so arranged that the elevator automatically answers all the calls in the direction in which it is traveling, and does not require any operator. It also stops on any trip at all floors for which a button in the car has been pressed, the older system of control necessitating the elevator answering only one call at a time.

It is significant that the Medical Buildings of the University of Chicago, pictured above, as well as the St. Luke's Hospitals in Chicago and Cleveland are installing Otis Collective Control Push Button Elevators, representing the last word in hospital elevator operation.

**O T I S E L E V A T O R C O M P A N Y**

Offices in all Principal Cities of the World

There are several hundred of the finest boys of the state working their way through A. and M. Most of these boys have borrowed the money necessary for registration from the college, some individual, or one of the loan funds established by some organization, and are paying these notes by working during their spare time. Many are not successful in obtaining loans, and are forced to delay their entrance to college, having to work a year to save enough to attend the next session.

It has always been the purpose of the D. A. R. organization to aid the education of the unfortunate, contributing to many scholarships and student loan funds, beside maintaining their own institutions. The Bryan chapter has recognized the need at A. and M. and has given this need precedence over their other consider-

ations. The students appreciate this help offered by the Bryan people, and hope to prove worthy of this, as well as all the other courtesies they have offered.

**SPAIN**

How like a dream Dolores idly sits Upon her door step, smoking her cigar. Her dilatory husband prates—and spits Emphatically. Her naked children are A bit too old for sunburn, and a bit Too brown. Her friends are all as fat again As she. Her husband's friends are little men. Dolores smokes, and muses over it. S. F. Ayers, in the Harvard Advocate. —(The New Student.)

**LONGHORNS**

Extra Longhorns must be ordered before Saturday noon, February the 26th. You may give your order, with a \$1.50 deposit, to any member of the Longhorn Staff. NO EXTRA COPIES will be purchased other than those ordered before the above date.

Students who have ordered DeLuxe copies must send the name they wish printed on the cover to 17 Mitchell before the above date.

JERRY LEE, Business Manager.
