Safe-guarding tobacco's
priceless asset

TOBACCO that's a veritable treasure, a wealth of rich mellowness, worth its weight in gold. . . deserves every possible protection to assure its safe-keeping. So, the utmost precaution is taken to safe-guard Granger's priceless properties.

To prevent the loss of one bit of its freshness, Granger is first packed in a heavy-foil pouch. . . Then to be 100% on the safe-side, this is sealed 'AIR-TIGHT' in an extra outside-wrapper of glassine—keeping the tobacco 'factoryfresh' till you break the seal to load your pipe!

Our chemists say it is 'an almost perfect seal for tobacco condition'—protecting tobacco better than any container except the VACUUM tin. Then, because it is much less expensive than a costly pocket-tin, Granger's pocket-packet sells at just ten cents. It's the greatest value ever offered to pipe-smokers!

GRANGER
ROUGH CUT

The half-pound vacuum tin is forty-five cents, the foil-pouch package, sealed in glassine, is ten cents.

Made for pipes only!

The State Basketball Tournament will be held here Friday and Saturday of this week and we might all join in with the plan of Dr. Walton and try to make this a "howling" success. As Prexy has so well expressed it, "The officers of the Interscholastic Basketball League have favored this College by granting us the privilege of having the 7th annual State Basketball Tournament held at College Station, March 4th and 5th. There will be a large number of athletes from various sections of the State here as our guests upon this occasion, and we believe that their coming will be beneficial to every department of the Institution. I trust that the officers of the college and the student body will join with the athletic department in their efforts to make the visit of these students one that shall be both profitable and pleasant."

"The presence of this group of boys upon the campus will give us an opportunity to show the Institution to a desirable group of prospective students and I trust that we may extend to them every courtesy to which visitors are entitled. This is the first time the College has been favored by having the Annual State Basketball Tournament here and I personally feel that we are most fortunate in securing the tournament this year."

The College Officials have compiled a list of those who are eligible to be distinguished students at the end of the year. In the compiling of this list they have also prepared several minor lists which might be of interest to the cadets in general. Such lists as who were the high point men and the number of distinguished students each of the several large cities here in Texas have.

The high point men are as follows; none being given who had below 40 grade points.

- Dexter, F. F., Jr., 3 Ar. 48.
- Boyd, W. F., 4 Ag. 47.
- Blair, H. H., 4 Ar. 44.
- Carpenter, F. R., 3 Ar. 42.
- Watkins, D., 1 E. E. 41½.
- Cunyus, P. H., 4 Ag. 41.
- Pianta, E. N., 3 Ar. 41.
- Mallory, C. F., 1 Te. 40½.
- Moselay, S. S., 1 E. E. 40½.
- Box, R. A., 4 Ag. Ed. 40.
- Thalman, V. W., 2 Ag. 40.
- Horn, W. Y., 1 Ar. 40.
- Thompson, O. W., 1 Ag. 40.

Dallas leads with 37 possible dis-

tinguished students. San Antonio has 35, Ft. Worth and Houston 17, Waco 13, and Bryan 10.

To become a distinguished student there must be, at the end of the year an accumulation of over 60 grade points to the students credit. The authorities have kindly consented to allow a student to become distinguished if he makes only 20 grade points the first term, provided he makes 40 the next. That is like making a "B" the second term to bring up that low "D."

Several experts on cotton marketing from the United States Department of Agriculture and a number of outstanding cotton men of the State will be at College Station for the summer school of cotton to be held at the A. and M. College of Texas from June 6 to July 16, J. B. Bagley, professor of textile engineering and head of the textile department, who will be in charge of the school, has announced.

Among the representatives from the U. S. Department of Agriculture, who have accepted invitations to address classes in the school are Dr. B. Youngblood, special senior agricultural economist, Bureau of Agricultural Economics, who is director of the Texas Agricultural Experiment Station but is on leave for his present work; and Arthur W. Palmer, in charge of the division of cotton marketing, Bureau of Agricultural Economics. The Division of Cotton Marketing has also indicated that an expert to instruct in cotton standards will be here for the school.

Victor H. Schoffelmeyer, agricultural editor of the Dallas News; W. H. Wolfe, well known cotton man of Dallas; and W. L. Clayton, outstanding cotton man of Houston, all of whom are widely known in cotton and agricultural circles, have accepted invitations to speak during the school session, Prof. Bagley said.

L. E. Dowd, associate professor of textile engineering, head of the division of cotton classing and marketing of the textile department of the College, will be in charge of the course of instruction in the cotton school.

There is a young man in Pawtucket
Who can't carry a tune in a bucket
He sang such a note
That it stopped in his throat
And 'stead of eating his food, he
must sucket.
