

### AGGIELAND TO HAVE NEW ATHLETIC FIELD

(Continued from Page 1)

10,000 additional temporary seats for the Thanksgiving game, Sullivan said, which will make available 30,000 seats for the 1927 Turkey Day Game. The permanent seating capacity of the A. and M. Stadium of steel seats heretofore used has been 9,000, though it has been possible to raise this by temporary seating stands to 25,000.

The new stadium will occupy the same position on the east side of Kyle Field heretofore occupied by the old. The initial concrete unit will be on the west side. It will be 360 feet long, 90 feet deep at the bottom, and forty rows high. The steel stand on the east side of the gridiron will not be disturbed for the present. The steel structure on the west side to be replaced by the concrete unit, will be put in place at the north end, forming the bottom of the U-shape and connecting the concrete unit with the steel unit on the east side. Two other concrete units in time will replace the steel on the north and east. The south end will be left open, forming the mouth of the U.

By the addition of four and a half acres to Kyle Field on the south, the present area of 10 1-2 acres will be increased to fifteen. This will form a plot 300 yards long by 250 yards wide as the home of sports at Aggieland. It will afford space for the varsity football gridiron within the stadium and two practice football fields; varsity baseball field, and a diamond for the freshman team; track course including straight-a-ways and circular course and pits for jumping, pole vaulting, etc. The basketball court is in the present gymnasium where ample locker and shower facilities to accommodate the athletes are located.

Under the new arrangement, the track course will be moved from the baseball field to the inside of the stadium, around the football gridiron. The circular track around the football gridiron will be 25 feet wide and there will be a 30-foot wide, 220-yard straight-away course extending through the open south end of the stadium. These courses will have concrete curbs on both sides all the way around. Through this arrangement the stadium will furnish seating facilities for the track meets. The base of the track courses are being laid now.

The varsity baseball diamond will be moved from its present site to the southwest corner of the enlarged Kyle Field. Batters will face directly north, which will eliminate sun-glare for the outfielders. The present baseball grandstand of wooden seats will be moved but the seating capacity will be increased by 1,000 seats, making a total capacity of 4,000 seats in the baseball grandstand. Work moving this stand will start about June 1, after the present diamond season. The new baseball diamond site has already been graded and sown with Bermuda grass. By next September, the metamorphosis of Kyle Field, with the exception of the all-concrete stadium, will be a reality, Sullivan said.

A feature of especial interest to sports writers in connection with the new Stadium will be the press box which "Sully" has planned. This will be a press box lacking in no facility for the sports writers. With the exception of the front, it will be enclosed as a protection against wind and rain. Thirty-six seats and desk

room for thirty-six will be provided. The press box equipment with electric lights, radio wire, two telegraph wires, long distance telephone, six field telephones. The sports writers will have at his hand all conveniences for dispatching his report without leaving his seat in the press box.

The financing of these improvements for Kyle Field by the Athletic Department from its income over a period of years, will be a process of putting into the athletic plant at the College the revenues from college sports, a self-sustaining, self-building process. The realization of the completely worked out plan will be the realization of a dream that has absorbed the unflagging interest, the constant attention of Business Manager Sullivan since he first took over the reins of business manager of the department in June of 1919. Under "Sully's" regime, the athletic plant of the College has grown step by step from a property probably worth \$10,000 to its present dimensions. Kyle Field was smaller in 1919 than it is now. A dilapidated board fence surrounded it. There was no steel stadium, no baseball grand stand, no gymnasium building, no tennis court accommodation. Kyle Field today stands as an example of what can be done in building up a physical education laboratory. When all of the plans

that are revolving in "Sully's" brain are worked out, it will be a more compelling example.

### LONGHORNS DEFEAT AGGIES ON TRACK.

(Continued from Page 9)

to form, finished 150 yds. ahead of the Texas team.

100-yard dash—1st—Cockrell, Texas; 2nd—Landa, Texas. Time 9.8 sec.  
220-yard dash—1st—Buck, A. and M.; 2nd—Cockrell, Texas. Time 21.2 seconds.

120-yard high hurdles—1st—Kennedy, A. and M.; 2nd—Stallter, Texas. Time 15.5 seconds.

220-yard low hurdles—1st—Kennedy, A. and M.; 2nd—Stallter, Texas. Time 24.3 seconds.

440-yard dash—1st—Parker, A. & M.; 2nd—Daniels, Texas. Time 50.8 seconds.

880-yard run—1st—Crump, A. and M.; 2nd—Conner, Texas. Time 2:01.3.

Mile run—1st—Miller, Texas; 2nd—Haile, A. and M. Time 4:35.3.

Shot put—1st—McKenzie, A. and M.; 2nd—Bartlett, A. and M. 43 feet, 9 1-2 inches.

Discus throw—1st—Gooch, Texas; Bartlett, A. and M. 134 feet, 8 3-4 inches.

Javelin throw—1st—Smith, Texas;

Yeary, A. and M. 178 feet, 4 1-2 inches.

High jump—1st—Ashley, A. and M. and Sheppard, Texas tied at 5 feet 11 1-2 inches.

Broadjump—1st—Smith, Texas; 2nd—Sheppard, Texas. 23 feet 2 inches.

Pole Vault—1st—Patterson, Texas; and Brown, Texas, tied at 12 feet.

Two-Mile run—1st—Slaughter, Texas; Childers, A. and M. Time 10:21.

Mile Relay—Winning team A. and M. composed of Burgess, Blair, O'Neal and Capt. E. Parker. Time 3:28.8.

Total score, Texas 63, A. and M. 54. Our next meet will be with S. M. U. on April 9 at Kyle Field.

### CONFERENCE STANDING.

	Won	Lost	Pct.
Texas A. and M. ....	2	0	1.000
Texas U. ....	3	1	.750
Rice .....	2	2	.500
S. M. U. ....	1	1	.500
T. C. U. ....	1	3	.250
Baylor U. ....	1	3	.250
