

STUDENT OPINION

(Continued from Page 2)

absorbed a few shots of drink—and how many boys take pleasure in seeing their sweethearts and sisters struggling around with such characters?

In behalf of the seventy percent of our student body who are still clear thinking and self-respecting, I wish to plead with the other thirty percent that they at least have a little regard as to the wishes of the majority. I know there are any number of arguments about drinking, but since it is ruled out by so many of us, evidently it is not a major A. and M. practice. If a fellow wishes to drown his worries (poor thing), let him go off among others of his kind without the A. and M. uniform—and drink his fill. There can be no objection to a fellow's actions as long as he burdens only himself with them. The person who drinks at our dances and tries to associate with our guests does so against the will of the majority. He loses friends and gathers disgust. I'm for less public intoxication and better dances!

DIFFLE WINS BOXING BOUTS.

(Continued from Page 6)

bouts. The champions of the tournament are as follows: 125 pound class, Ray, H. S.; 135 pound class, Hornbuckle, W. E. 145 pound class, Kennedy, W. L. 160 pound class, Biffle, R. E. 175 pound class, Thompson, J. M. Heavyweight class, Biffle, R. E.

The Gymnastic meet will be held Saturday, May 7 at 1:30 p. m. and all men desiring to enter should report at that time. Tumbling, work on the horses, Parallel Bars and Elephant will constitute the meet and the man scoring the most points in these events will be awarded points toward the individual medals.

The Swimming Meet will be held in the near future and the date will be announced in the near future.

The Battalion having scored the most points for the year will be presented with a banner at the close of the school year.

WEEK'S NEWS IN REVIEW.

(Continued from Page 3)

pus, and through several gates the peasant folk, represented by the students, trooped in. The coronation of class, and the winding of several Maypoles was the feature of the ceremonies. The most beautiful part of the fete came at dusk, when lighted lanterns of many colors were hung on the campus trees, and an unseen choir sang from the balcony of the facade of the Administration Building. The queen, a member of the Junior

"It makes me feel uncomfortable to have all my old friends hanging around," said the executioner as he shook out his rope.

SENIOR CHEMICAL ENGINEERS OBTAIN POSITION.

(Continued from Page 5)

are very active and are requiring such a large number of trained men. The Chemical Engineering course offered at A. and M. is one of the best in the country, and the graduates are given a wide preference.

The following Chemical Engineering seniors have accepted positions and it seems logical that they will turn out to be the best of the younger engineers in their field:

- Caldwell, B. M., American Refining Company, Wichita Falls, Texas.
- Coleman, S. A., Jr., Three Rivers Glass Company, Three Rivers, Texas.
- Froehlich, E., Taft Oil & Gin Com-

pany, Taft, Texas.

Gibson, J. G., Anderson, Clayton & Company, Abilene, Texas.

Hays, C. D., Comar Petroleum Company, Marlin, Oklahoma.

Knox, F. A., United States Gypsum Company, Sweetwater, Texas.

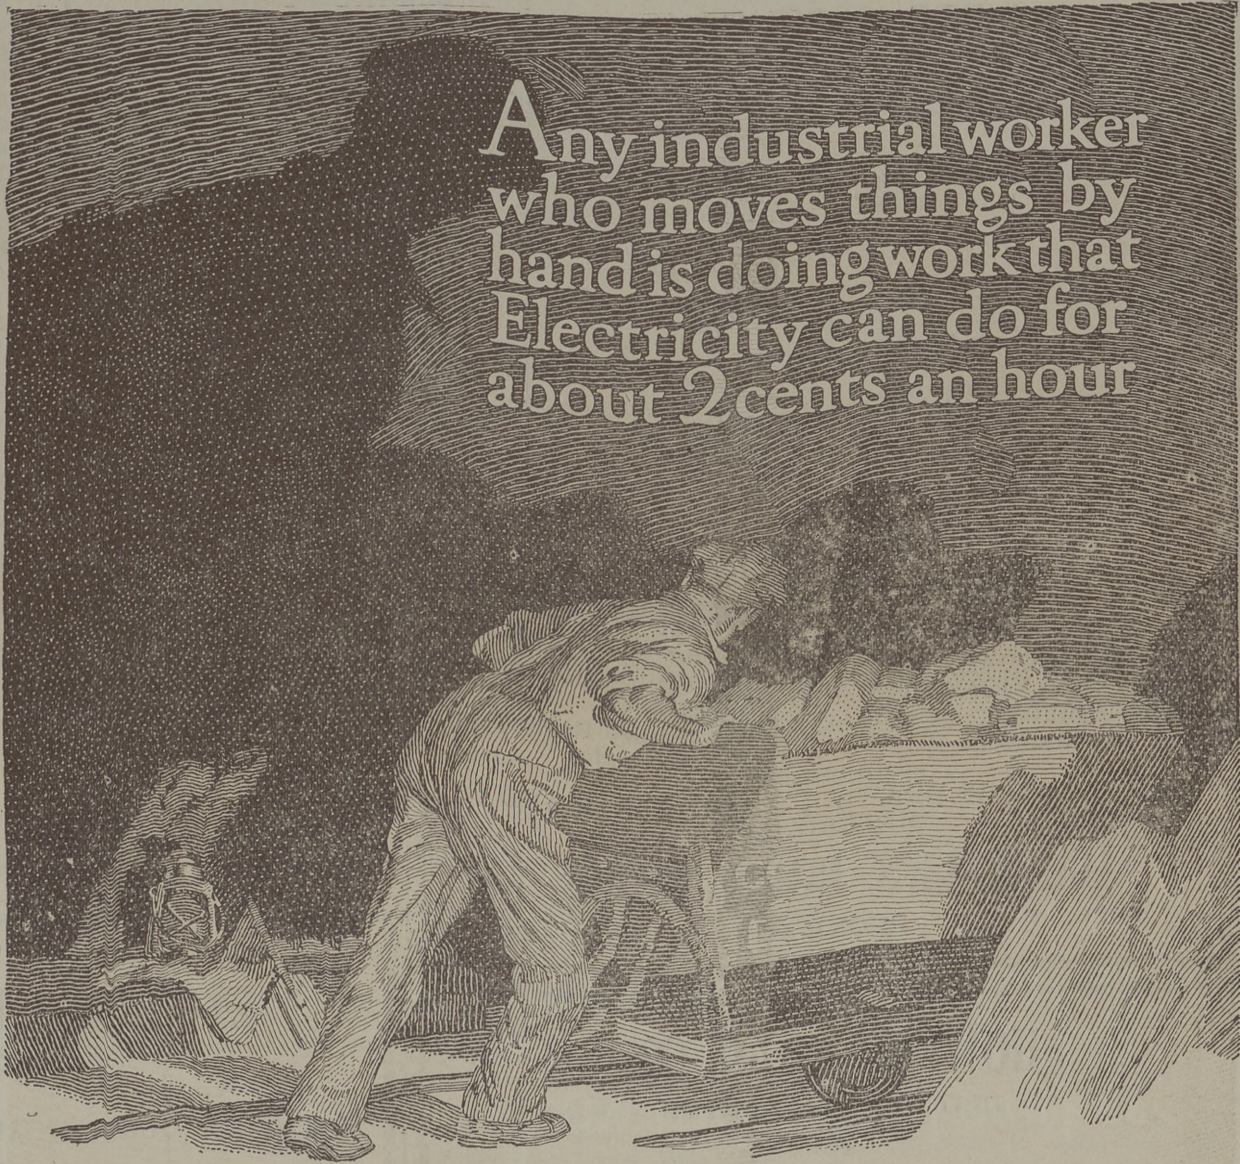

Olivey, T. A., Anderson, Clayton & Company, Abilene, Texas.

Puryear, O. P., The Texas Company, Port Arthur, Texas.

Ross, R. S., Empire Refineries, Gainesville, Texas.

Townsend, F. H., Lone Star Gas & Oil Association.

Witherspoon, J. A., Empire Refineries, Gainesville, Texas.

More than 60 per cent of the mechanical power used by American industry is applied through electric motors. But the electrification of the tasks performed by man power has hardly begun. Electric power not only saves dollars; it conserves human energy for better purposes and raises standards of living. College men and women may well consider how electricity can lessen the burdens of industry and of farm and home life.

You will find this monogram on all kinds of electric equipment. It is a symbol of quality and a mark of service.
