

LARGE CLASS TO RECEIVE DIPLOMAS.

(Continued from Page 1)

While candidates for degrees number 302, degrees sought number 304. This is accounted for by reason of the fact that two students are candidates for two degrees each.

Classification of degrees to be awarded shows the B. S. degree far in the lead with 275. M. S. is next with 17, and B. A. third with 7. Two doctor of veterinary medicine degrees are to be awarded, and three professional degrees.

Compilation of the list of candidates for graduation shows engineering students leading, with a total of 150. Students in the School of Agriculture are next in number with a total of 102. In the School of Engineering degrees are offered in six courses, while in the School of Agriculture degrees are offered in three courses. The remaining graduates are divided between the School of Arts and Sciences, School of Veterinary Medicine, School of Vocational Teaching and the Graduate School.

Candidates for degrees in agricultural administration, School of Agriculture, lead in number for any one course, with a total of 55. Candidates for electrical engineering degree, School of Engineering, are a close second in number, with a total of 53. Candidates for degree in agriculture number 45, while candidates for mechanical engineering degree number 31.

Prof.—“Can you give me the derivation of Auditorium?”

Pupil—“From Audio, to hear; and *Taurus*, bull; a place where—”

Prof.—“That will do, that will do.” —Exchange.

An old Chinaman, delivering laundry in a far north lumber camp, heard a noise and espied a huge bear sniffing his tracks in the snow.

“Huh,” he gasped, “you likee my flacks? Me makee some more.”

She: Don't you love driving on a night like this?

He: Yeah—but I thought I'd wait till we got further out in the country.

“Look here waiter, this chop is burned black!”

“Yes, sir, that's a mark of respect; our head waiter died yesterday.”—Escondido, (Calif.) Times-Advocate.

When it's 18,000 degrees—in June

B. A., B. S., E. E., C. E. and many others soon to be awarded to thousands of students throughout the land.

Degrees representing a wide variety of work, and all of them qualifying the graduate to enter the broad field of electrical communication.

For men of technical training, of course, and for many others besides—salesmen, accountants, purchasing men, potential executives—here is an industry in which America leads the world, but which is only on the threshold of greater things.
